

Allied Forces In Major Thrust

Armored Spearheads, Troops,
Planes Blast Korean Units

U.S. EIGHTH ARMY HEADQUARTERS, Korea (Saturday) (AP)—Allied armored columns jabbed into the north corner of the old Communist iron triangle in central Korea Friday, shot up everything in sight and then withdrew for the night.

It was perhaps the heaviest armored thrust of the Korean war. Infantrymen followed the tanks into action.

Elements of three Allied divisions smashed northward within a short distance of Pyongyang, apex of the triangular area used last spring as a massive build-up area by the Chinese and Korean Reds.

On the hitherto-flaming eastern front, the five-week-old "Battle of the Hills" ebbed to sporadic clashes.

The armored thrusts on the central front were the first heavy Allied attacks in that sector since the Communist offensive last May was rolled back.

Rolls Deep Into Massina Area

The assault force rolled deep into the valley massing area before it ran into firm resistance. Front-line reports said one spearhead was locked in savage combat with Red troops swarming on all sides.

Overhead, allied planes darkened the skies. The thrust was dubbed "Operation Cleaver." But it was not officially labelled an offensive—it was an armored raid.

Pyongyang, apex of the triangle which also is bounded by the key cities of Ch'orwon on the southwest and Kumbha on the southeast, is 29 miles north of the 38th parallel.

Bitter fighting flared across 80 miles of the Korean front, all the way from the triangle area eastward to the sea of Japan.

On the mountainous east-central front, the U.S. 1st Marine Division knocked nearly 2,000 Reds off a 3,000-foot peak they had defended stubbornly four days.

Nearby, a marine company ferried Thursday to a hilltop by helicopter linked up with the main allied force. No enemy opposition was reported.

The Reds hurled fresh combat troops in regimental strength into the bloody "Battle of the Hills" Thursday. The reinforcements temporarily stalled the month-old Allied advance.

Only local patrol clashes were reported from the western front. Eleven times Thursday U.N. infantry stormed the spiny ridges of the east. Eleven times they were thrown back. It was the strongest Red resistance in months.

In the absence of president Denis Hagar, vice-president A. B. de B. McPhillips was in the chair.

According to a spokesman for the Victoria federal organization, the censure vote passed by a 22 to 4 majority.

He was a candidate for the Conservative federal nomination for the last general election. Unsuccessful, he served as campaign manager for Gordon A. Cameron.

Association members referred to Stanbury's "disloyal action to the party and its leader" and said it should be dealt with immediately.

Secretary Capt. L. S. Daynes was instructed to inform Stanbury and the Oak Bay association of the action. Next meeting of the Oak Bay group is Oct. 4.

In a statement this morning, Stanbury said: "Yes, I am wholeheartedly supporting Commander Wurtele, the Independent candidate. He is an outstanding candidate. He is an Esquimalt councillor, a director of the Royal Jubilee Hospital board and a long time resident of Esquimalt."

"I, along with hundreds of other Conservatives, are working and voting for Commander Wurtele."

Asked if he would resign from the Oak Bay group, Stanbury replied: "Definitely not."

He declined to make any further comment.

Wildcat Walkouts Cut Steel Output

SYDNEY, N.S. (CP)—Dominion Steel and Coal Corporation announced today it is shutting down one of its two blast furnaces here because of wildcat walkouts and a sitdown strike among its 4,700 employees.

The decision was announced in a letter from C. M. Anson, Dosco's chief of steel operations, to Ed Corbett, president of the Sydney Local of United Steel Workers (C.I.O.-C.L.).

An informed source said the action would reduce production by at least one-third.

Traffic Fatality
NEW WESTMINSTER (CP)—Tommy Brett, 14-year-old cyclist, died in hospital Thursday night shortly after he was in collision with an automobile.

Suitable gifts, indicative of the high esteem of the people of British Columbia, will be given to Princess Elizabeth and Prince Philip during their visit here next month, Premier Byron Johnson made the announcement today after a Cabinet meeting.

To Her Royal Highness will be given on behalf of the people by the Premier at an Empress Hotel luncheon, a headdress, and earrings to match, mounted in platinum and gold and set with diamonds and emeralds. The Dogwood, B.C.'s official emblem, is the motif of the design.

The Duke of Edinburgh will be presented with cufflinks and studs of Dogwood design.

For Prince Charles, there will be a specially-made Indian sweater and for Princess Anne, soft Indian moccasins of elk skin headed and fur-lined, all in white, metals will be from British Columbia, the announcement said.

Craftsmen of Henry Birks and Sons (B.C.) Ltd., Vancouver, are making the jewelry.

The earrings might be described as miniature Dogwood corsages, and very dainty in appearance.

The cufflinks are plain platinum with a Dogwood blossom in relief, and in the centre a small diamond.

The shirt studs are small Dogwood flowers with small diamonds.

W. STANBURY

Conservatives Pass Censure On Stanbury

Split in the local Progressive Conservative ranks over the Esquimalt by-election widened last night when the Victoria Federal Progressive Association passed a vote of censure on its former president, Whitworth Stanbury.

The action was taken because Stanbury has been acting as campaign manager and meeting chairman for Independent Cndr. A. C. Wurtele, who is backed by the one-time Coalition member W. A. C. Bennett of South Okanagan, who crossed the floor of the House last session.

The censure vote was passed at a special meeting at St. Mary's Hall. The Victoria federal group is made up of Oak Bay, Victoria and Esquimalt. Stanbury is a member of the Oak Bay group.

In the absence of president Denis Hagar, vice-president A. B. de B. McPhillips was in the chair.

According to a spokesman for the Victoria federal organization, the censure vote passed by a 22 to 4 majority.

He was a candidate for the Conservative federal nomination for the last general election. Unsuccessful, he served as campaign manager for Gordon A. Cameron.

Association members referred to Stanbury's "disloyal action to the party and its leader" and said it should be dealt with immediately.

King Will Be Operated On, Royal Couple Sailing Tuesday Canceled

Police Seek Logger Who Knifed Friend

Man In Hospital
In Poor Shape
After Attack

An Island-wide police hunt is underway today for a man who critically knife-wounded a fellow worker last evening in a car on the Island Highway north of Duncan.

In King's Daughters' Hospital, Duncan, in poor condition, is Ray Boyce, 1288 East, 27th Street, Vancouver.

WARRANT ISSUED
B.C.M.P. have issued a warrant for the arrest of Albert Fairweather, also of Vancouver, on a charge of wounding Boyce with intent to maim.

The hunted man is described as being 47 years old, five feet, nine inches, 175 pounds, of dark complexion, brown hair and growing a thick untrimmed mustache. He was dressed in a checkered shirt and brown slacks.

Police report that Boyce, Fairweather and four other loggers, all employed by Bloedel, Stewart and Welch, Port Alberni, left their camp because of forest closure and were traveling to Victoria.

At a point six miles north of Duncan the men left the car. An argument ensued and during it, Boyce was stabbed in the abdomen with a knife or other sharp instrument.

Four men of the party picked the wounded man up, placed him in the car and rushed him to the hospital, leaving Fairweather at the scene. They then notified the police.

6-INCH WOUND
Police said Boyce suffered a six-inch gash in the stomach. He was given five blood transfusions during the night. Victoria headquarters dispatched a car bearing additional plasma from Jubilee Hospital.

R.C.M.P. immediately alerted detachments and other police forces of the island to be on the lookout for Fairweather. All outgoing boats from the island are being closely watched.

Policemen have been advised to approach accused cautiously.

Railway Union
Members Seek
Wage Increase

MONTREAL (CP)—Frank H. Hall, chairman of the general conference committee representing 18 international railway unions, today announced the unions have approached Canadian railways for consideration of wage increases because of the increasing cost-of-living.

"In view of the fact that last year's arbitration settlement has another year to go," he said, "no formal request for a specific amount of increase has been represented. It was anticipated the railways would give sympathetic consideration to the matter as being a common problem, and that there would be discussions between them and the unions on the subject in the near future."

He said the last increase for the majority of railway workers was effective Sept. 1, 1950, under the arbitration award of Mr. Justice R. L. Kellock. It amounted to 7 cents an hour.

Sooke Loggers
Want Permit
To Operate

SOOKE—Logging operators, mill owners and woodsmen here are considering a direct request to the B.C. Forest Service for permission to operate during the present forest closure.

At a meeting Thursday night in Sooke Legion Hall, 45 members of the industry claimed that many operations in the district were safe enough to be worked.

They suggested that Forest Service officials visit each operation and grant work permits according to conditions found at each site.

Tentative plans were made to visit the office of Forest Minister E. T. Kenny to describe conditions in the area.

The loggers also deplored the permitting of hunters in the woods during the dry season.

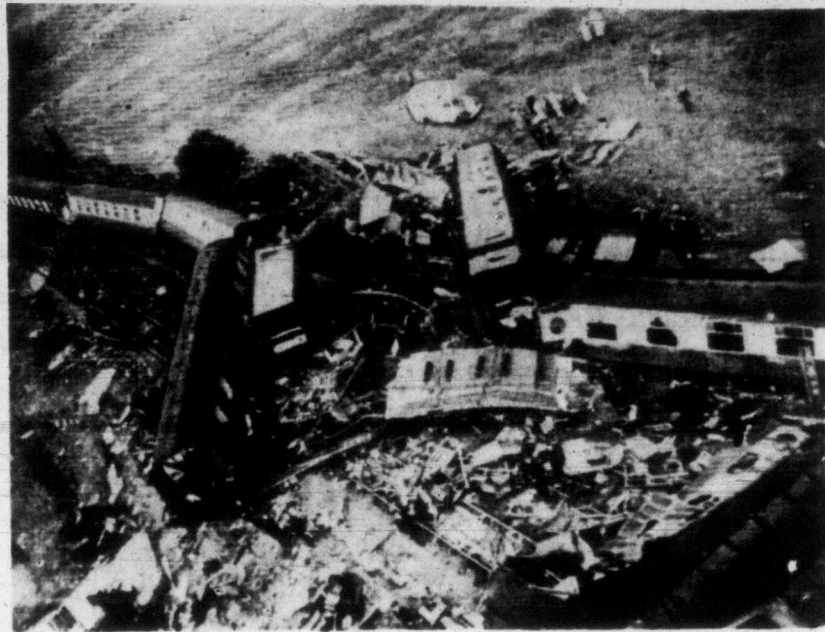

C.C.L. Calls For
Tax Reductions

VANCOUVER (CP)—The Canadian Congress of Labor today called for tax reductions.

The C.C.L. at its annual convention asked for these tax changes:

1. Increasing the personal income-tax exemptions to \$3,000 for married men and \$1,500 for single taxpayers, from the present \$2,000 and \$1,000 and increasing the exemptions for children to \$400 from \$150.

2. Repealing the 1951 increase in the sales tax from eight to 10 per cent, along with repeal of this year's excise taxes.

11 Die In British Train Wreck

When the Liverpool-London Express jumped the rails today, at least 11 persons died and 45 others were injured. The accident view above was taken from an aircraft and shows how the coaches spilled over the right-of-way and embankment near Weedon. (AP wire photo, by radio.)

11 Die When British Train Jumps Tracks

WEEDON, Northampton, Eng. (AP)—A speeding express train jumped the tracks here today, smashing five coaches and killing at least 11 persons.

Another 45 passengers on the 15-coach train, bound from Liverpool to London, were injured.

Hours after the crash, police and British army rescue workers were still combing the wreckage for possible further casualties. Earlier police had said 20 persons were killed.

(Reuters news agency quoted Canadian Pacific steamship officials as saying that so far as it is known, there were no passengers aboard the wrecked train.

The ship docked at Liverpool early today with Canadians aboard.)

The accident occurred as the train was leaving Stowe Hill tunnel, half a mile south of here on the main London-Liverpool line.

The locomotive plunged down a steep embankment. Five of the leading coaches piled up, badly smashing the first two.

The engineer, buried under tons of coal which slid from the tender, was dug out badly injured.

An early estimate by the Northamptonshire county police had given the number of dead as 20. The later figure was based on an actual count of bodies recovered.

Sooke Loggers

CABINET IN DOUBT ON MILK CONTROLS

Island Industry Clamorous At Reports
B.C. Ministers Undecided On Policy

Suggestion that individual cabinet members are favoring the abandonment of price controls on milk brought quick protests here today from producers and distributors.

Henry Robinson, secretary-manager of the Island Dairy-men's Association, said:

"For the past two years the Milk Board has kept the price to producers below the cost of production. Before the Milk Board is dropped, it should set the price at the figure we think is right, try it on that basis for six months, and see what develops."

WOULD MEAN CHAOS
A spokesman for the distributors said simply: "Dropping the Milk Board now would result in a terrible mess."

A check revealed a similar reaction from the majority of Vancouver, Island milk producers and distributors on reports that Agriculture Minister

Harry Bowman is "very discouraged" at the outlook of continuing milk controls.

That the government might be approached to drop milk controls came out of Vancouver Thursday, when the Milk Board rejected the appeal of island farmers for another increase and refused to approve a skip-a-day delivery system in the west end of Vancouver.

Mr. Bowman and other cabinet ministers were quoted as being "fed up" with the controversy.

One spokesman for the government said: "We have recurring trouble with people and the milk industry and get no thanks from either side."

British Election Brings
Change In Iran Policy

TEHRAN (AP)—Informed sources said today Premier Mohammad Mossadeq is dropping plans to send Britain an ultimatum on the stalled oil talks until after the British election next month.

A note demanding the reopening of negotiations—broken off last month—will go to London soon. But it will be minus the threat to expel within 15 days the last British oil technicians left in Iran, it was reliably reported.

The switch in tactics is said to be based on Mossadeq's belief that Prime Minister Attlee could not make any further compromises with Iran while fighting the election against the Conservatives.

The main opposition party, led by Winston Churchill, has advocated a tougher policy with Iran.

The Iranian cabinet has scheduled a meeting for tomorrow to decide what to do with the ultimatum. Mossadeq had tried to relay it to Britain via W. Averil Harriman in Washington. Harriman refused a few days ago to send it on.

The announcement of British elections in October appears to have given Mossadeq a face-

saving means of avoiding a showdown with Britain at a time when his own drastic policies are leading to increased opposition in Iran.

The Shah, who for the last five months has been holding aloof from the bitter oil-nationalization dispute, is now reported to be playing a leading role in getting Mossadeq to withdraw the ultimatum. The Shah's minister of court has been holding hush-hush meetings with Iranian political figures and British and U.S. diplomats.

Duce's Widow Says
Body Not Returned

ROME (AP)—Italo-Forncella, widow of Benito Mussolini, said today the Duce's body has not been returned to his family because "the living are afraid of the dead."

The lawyer issued the statement in denying reports published in the newspaper Memento Sera Sept. 14 that Mussolini's body was to be returned to the family for burial in his hometown cemetery at Predappio.

CONSERVATIONISTS BITTER
Board Awards Contract
For Elk Falls Project

Campbell Bennett Construction Company, Vancouver, has been awarded the contract for extension of the B.C. Power Commission Elk Falls power house.

The company's bid was \$568,990.

Unsuccessful tender, the only other one submitted, was that of General Construction Com-

pany, also of Vancouver. Its bid was \$617,662.

This is the work which figured prominently in a part of the Battle Lake hearings recently. Conservationists, noting the advertisement calling for tenders, deplored the fact that the commission was taking such action even before the hearings were completed and a decision rendered by the water rights controller.

Plan Plane Passage To Canada Later

LONDON (Reuters)—The King is to have an operation, it was officially announced tonight.

Princess Elizabeth and the Duke of Edinburgh have postponed their plans to leave for Canada Tuesday but hope to fly later arriving in Quebec by Oct. 2.

The announcement said the projected tour of Canada will still be carried out.

Final decision about the King's tour of Australia and New Zealand next year will be announced within a week or two.

A bulletin issued from Buckingham Palace said tonight:

"The condition of the King's lung gives cause for concern.

"In view of the structural changes referred to in the last bulletin, we have advised His Majesty to undergo an operation in the near future. This advice the King has accepted."

WARM SPELL TO CONTINUE

Warm dry air from the interior of the province will continue to flow toward Vancouver Island for the next two days, Victoria's weather man forecast today.

High temperature for both today and tomorrow is expected to be 77, with the overnight low at a comfortable 52.

Sees 25% Less
In National
Health Grants

A 25 per cent reduction in national health grants for continuing projects and new services, faces Victoria for 1952, Dr. J. L. Gayton, medical health officer, advised the Union Board of Health meeting today.

Dr. George Elliott, assistant provincial health officer, wrote of an increasingly serious situation with insufficient funds to meet continuing projects and new services.

"The board must face the possibility that in our next application for a grant, they will expect us to make a 25 per cent reduction in overall receipts from federal grants," Dr. Gayton said.

Federal grants totaling \$13,846 provide the city with a psychologist, public health educator and inspector in environmental sanitation. A portion of the assistant medical health officer's salary is also met by federal grant.

Admit Seafarers
Into Conference

MONTREAL (CP)—The Seafarers' International Union (A.F.L.-T.C.L.) has been admitted into association with the general conference committee of the International Railways Union, F. H. Hall, chairman of the committee, announced today.

The Seafarers' Union has a Canadian membership of 8,000. The S.I.U. holds contracts with the Canadian Pacific Railways, covering operations on the B.C. coast and the Bay of Fundy in the Maritimes.

7,000 British Dock
Workers End Strike

LONDON (Reuters)—Two of Britain's three dock disputes ended today when 7,000 dock workers and tugmen resumed normal working in London and Manchester.

The remaining dispute continued when about 2,000 dock workers at Tilbury, within the port of London, decided today to continue their five-day strike against new labor recruitment plans.

Rocked By Blasts

BRIGHTON, N.Y. (UP)—A series of gas main explosions demolished or set afire almost a score of homes in this suburb of Rochester, N.Y., today.

Early reports said "some" persons had been injured.

Police estimated that 16 or 18 homes already had been demolished or "were burning."

Four of Rochester's radio stations were put off the air because of electric power line shortages.

ONE WOMAN'S DAY

By NANCY HODGES

WITH PRIVILEGE

AMONG my mail a couple of days ago was a letter from a reader referring to my recent column on some ancient papers found in an old desk in Victoria, and explaining the expression "With Privilege" in one of their titles which had puzzled me. He writes:

"The expression 'With Privilege' from your interesting Stuart period newspapers means the same as 'Published by Authority' would mean today. In those times newspapers were licensed, to prevent, no doubt, the dissemination of 'dangerous' thoughts. They were often taxed, too, by the government of the day, but in those days of political and spiritual strife, unlicensed and unofficial pamphlets of all kinds abounded."

UNLICENSED PAMPHLET

HE goes on to add: "There is nothing in English literature, from Colin Clout, Langland, Chaucer, Shakespeare on, to indicate that the people of England were ever anything but free especially in their remarks. The Black Death in the 14th century knocked the last remnants of feudal privilege out of England, where in fact it never flourished but wanly."

By a curious coincidence, the same mail that brought that reader's interesting letter, with its reference to "unlicensed and unofficial pamphlets," also brought just such a pamphlet from another reader—this time an anonymous one.

BLACK BOOK

IT is called Mann's "Black Book of the British Aristocracy or An Exposure of the More Monstrous Abuses in the State and the Church; with Black Lists of Pensioners, Royal, Aristocratic, Legal, Civil, Hereditary, Military, Clerical, etc."

Although there is no date of publication on that little booklet, its general format, coupled with the dates in the letterpress, suggest that it is at least 100 years old. Most of the dates mentioned are in the early 1840's which, coupled with the allusions to Queen Victoria, substantiate my belief as to the age of the publication.

SPICY THREE-PENNORTH

AS to the contents, they afforded a spicy "three-pennorth" for the readers of that day, lambasting the Royal family, the "landed gentry" and the Church with equal and impartial violence. Here is a specimen from its pages, relative to the aristocracy of the day:

"Aristocracy means the best class—but are they so? They control and constitute both Houses of Parliament. They make the laws. They impose the taxes. They establish monopolies. They draw the puppet strings about the Throne. . . . Who that knows anything about the Peerage does not know of their profligate loves, their gambling in hell and at races, their depraved politics, their recklessness in running into debt, the corruption they practice at elections, and their numerous other devices. . . . They do not promote religion, but set it at naught. Though they present fat livings to priests, and patronize rich bishops, they consider themselves absolved from all engagements to religion or its practical duties."

PENSION LIST

AFTER that delightful little bouquet for the governing class of Queen Victoria's early reign, it isn't surprising to read that, according to the author of Mann's Black Book:

"The Civil Pension List is the disgrace of the English nation. It is the blackest record of jobs, chicanery, robbery and fraud ever perpetrated on a long-suffering and too-patient people. Here is a list of men, women and even children, mostly of the aristocratic classes. . . . Almost every article which enters the mouth must pay a fine to these idle parasites—the very beggar's mite is snatched from him to gild their coronets. Lazarus must carry his rags that grease may not be wanting for their carriage wheels."

All of which goes to prove what the correspondent alluded to earlier pointed out—that the people of England were never anything but free, especially in their remarks!

228,900 Applications Filed For Aged Pensions

OTTAWA (CP)—A total of 228,900 applications have been filed under the expanded federal old-age pension scheme which goes into effect January, the Health Department announced today.

It anticipated that altogether

Chalk Transferred To Ganges Bank

GANGES—C. Wilbur Dawson, Bank of Montreal manager here since 1948, has been transferred to White Rock, and will be replaced by Howard Chalk, of Victoria and Vancouver.

Mr. Dawson, president of the Salt Spring Island Chamber of Commerce, will be entertained with his wife at a farewell dinner next week, to be given by the chamber.

a total of 400,000 applications will be made, which, if granted, will bring to more than 700,000 the number of Canadians getting pensions for those 70 years old and over.

Under the expanded security plan, the \$40-a-month pension will be granted without restrictions on the amount of money the pensioner can earn and receive from other sources. Those who already receive the federal pension under the "means test" qualification don't have to apply again.

Registrations so far: Newfoundland, 1,300; Prince Edward Island, 2,400; Nova Scotia, 10,000; New Brunswick, 3,700; Quebec, 49,000; Ontario, 94,600; Manitoba, 12,900; Saskatchewan, 12,700; Alberta, 12,300; British Columbia, 27,400.

C.C.L. STARTS BIG DRIVE FOR MORE PAY

350,000 Congress Members Will Commence Higher Wage Campaign To Meet Rising Cost

VANCOUVER (CP)—The Canadian Congress of Labor has pulled the trigger on a wage drive among its 350,000 members to meet rising living costs.

The C.C.L., taking this action at its annual convention yesterday, lined up with the 500,000-member Trades and Labor Congress of Canada in giving affiliated unions the lead towards seeking living-cost wage hoists.

The T.L.C. step was taken at Halifax last week. It closely paralleled that of the congress here, which promised support to its unions in looking for "substantial" pay boosts.

The C.C.L. went further than the rival congress in deciding to set up regional committees to work with the unions and with a national wage co-ordinating committee of the congress itself in laying down wage policy.

Be-ides going along with the other congress on the wage question, the C.C.L. made an attempt yesterday to heal a breach opened up between the congresses at the Halifax session of the older and bigger T.L.C.

ONE UNIFIED BODY

It came out solidly for organic—absolute—unity of all branches of Canadian labor, a step directly opposite to that of the T.L.C., which adopted a policy declaration moving it away from the degree of partial co-operation

now existing between the central labor bodies in Canada.

The Canadian Congress of Labor leadership has had such a unification in mind for several years, but yesterday's resolution was the first time a C.C.L. convention has gone on record in such definite terms.

It called for "one unified central labor body," saying that is the only way for organized labor to be fully effective in advancing the interests of the workers. It ordered the C.C.L. executive to initiate plans to bring about organic unity with the other groups.

SET EGG RECORD

MENSTON, England (CP)—Farmer Joseph Brown's Rhode Island hen is aptly named "Constant Nymph." She established a British record of laying 325 eggs in 336 days.

SAN FRANCISCO'S FAMOUS OLD CABLE CARS WILL CLANG AGAIN

SAN FRANCISCO (UP)—The California street cable cars may start clanging up and down the San Francisco hills again before the end of the year.

The city agreed Thursday to buy the privately-owned line from the California Street Cable Railroad Company for \$150,000, less preferred claims. The actual amount would be in the neighborhood of \$138,000.

The agreement must be approved by the public utilities commission, the board of supervisors and Mayor Elmer E. Robinson, as well as by the company's creditors and a federal bankruptcy referee.

No opposition was expected from any of these bodies.

Ridgway Silent On Peace Talks

U.N. Commander's Action May Be Deliberate Planning

TOKYO (AP)—Gen. Matthew B. Ridgway withheld his answer today to a Communist proposal to resume the Korean truce talks at Kaesong.

But while the move to resume armistice talks hung fire, Allied armor roared out loudly across the Korean battlefield.

The battle of words over how to get the wheel of peace revolving again was as muted as the U.N.'s limited-offensive action was loud.

Even Red China's Peiping radio—the Communist sounding board—was notably silent.

Allies Said Ready To Deal With Italy

WASHINGTON (UP)—The Allies were reported ready today to start formal negotiations next month to overhaul Italy's peace treaty and make that nation a full partner against Russian aggression.

They hope the talks will be well advanced when the United Nations General Assembly meets in Paris, Nov. 6.

According to reliable diplomatic sources, the Allies will ask the assembly to adopt a formal resolution endorsing the treaty revision in the interest of world peace—whether Russia likes it or not.

Decisions on the blueprint for changing the treaty came swiftly during the 12-nation North Atlantic Pact Council in Ottawa this week.

Italian Premier Alcide De Gasperi was reported as "highly pleased" at the prospects for quick action to erase the "revengeful spirit" and arms limitations of the 1947 pact. He undoubtedly was thinking of the moderate terms of the Japanese Peace Treaty.

Informed sources said Gasperi now considers the major part of his work done, even though he is due to hold a series of conferences with President Truman and Secretary of State Dean Acheson here next week.

Acheson returned last night from Ottawa and was greeted by President Truman at the national airport and received Mr. Truman's compliments for a job well done.

There was only a dribble of hashed-over complaints of Kaesong neutrality violations where torrents used to flow.

Meanwhile, hope rode high in Tokyo and at the advance U.N. command camp near Munsan that the truce talks would be reopened despite Ridgway's silence and the rising crescendo of action along the battlefield.

There still was no definite indication when the supreme Allied commander would answer for the message of Thursday from the Red leaders, North Korean Premier Kim Il Sung and Chinese Gen. Peng Teh-Huai.

The Communist strategists suggested resumption of the peace discussions they broke off 29 days ago on charges of Allied air and ground violations of the restricted zone around Kaesong.

The Reds want liaison officers of both sides to meet and fix a time for reopening the conferences. They hope to discuss at this first session a plan for guaranteeing the neutrality of Kaesong and settling differences over previously-charged violations.

EXPECTED SOON

A spokesman in Ridgway's public information office said he was still awaiting word that the commander-in-chief has begun drafting his answer. The answer was expected in 24 to 48 hours.

Ridgway's delay may be deliberate for psychological reasons. He may want to let the Communists sweat it out a few days before giving the U.N. command reply.

The Communists suspended the talks. Now they have done a complete turn-about and are ready to talk again despite outstanding disagreements they previously were not willing to overlook.

There appeared to be little doubt that Ridgway would be agreeable to beginning peace talks again—but he may seek to impose conditions of his own before sending the U.N. command delegation back to Kaesong.

Pretty Girls In Precision Swim

Left to right, Jessie Sutherland, Margaret Ward, Aileen Smith, Jean Mills, Esther Mensen and Sylvia Ditchburn.

Municipalities Will Discuss Roads Control

Steps toward controlled development of the highways were suggested by Community Planning Association of Canada in a brief received at City Hall Thursday.

T. McDonald, secretary-treasurer of the association, stated in a letter that the subject would be on the agenda of the U.B.C.M. parley at Harrison Hot Springs in October.

Expressing concern over "serious damage" to B.C.'s road system which is being caused by uncontrolled ribbon development along our main arteries," the association urged:

Control of the right to access to major highways by the provincial government; effective zoning measures by municipal control of the design of subdivisions fronting on the highway.

IN COURT

People are not picking up their new five-year drivers' licenses before their birthday. And that means trouble.

SAANICH

Fined \$30 each for failing to have licenses were Mrs. A. Pitts, 90 Hampton Road; Cpl. Donald Fullerton, R.C.A.F., Pat Bay; R. A. English, 2828 Blackwood Street, and H. E. Green, 2663 Westdowne Road.

Willard Dawson pleaded guilty to careless driving and was fined \$40.

Robin Dunsmuir, 2583 McDonald Drive, was remanded to Sept. 27 on a charge of trespassing on enclosed land.

For installing an oil burner without being the holder of a trades license, John Welham, 109 Island Highway, was fined \$250. He pleaded guilty.

U.K. Import Bars Rapped By Hull

MONTREAL (CP)—Deputy Trade Minister W. F. Hull said Thursday he believes the time has come for Britain to be less discriminatory in import restrictions.

He told the Canadian Exporters' Association that the Canadian government is not satisfied with the current trade balance with the sterling area.

Constant pressure is being placed on British authorities to relax controls on dollar area goods, but even if all controls were eliminated, he doubted whether Canada could quickly recapture all the markets she had in 1948, before the controls were imposed.

Even so, it was essential for Canada's well-being that she build up more foreign markets, and be less dependent on the United States. This market "is not now nor is it likely to be a satisfactory long-term market for such products as wheat, flour and manufactured goods."

Beauty And Beasts Frolic At Colorful Arena Show

By ROY THORSEN

A hundred good laughs, athletic perfection on stage and in water, beauties on parade, colorful demonstrations by experts and retriever dogs under the perfect control of their masters . . . roll all those together and you've got the picture of what goes on tonight and tomorrow night in the Sportsmen's Show at Memorial Arena.

About 2,000 "first nighters" last night voted it "a good show" with plenty of variety and color to please all.

Sponsored by the Lions Club of Esquimalt, the show was officially opened by Premier Byron Johnson.

Civic Officials Going to Parley

Mayor Percy George will head a delegation of four Victoria aldermen and two civic officials at the Union of B.C. Municipalities convention at Harrison Hot Springs Oct. 9 to 11.

Attending with the mayor, who is president of the U.B.C.M., will be: Aldermen J. D. Hunter, Waldo Skillings, William Pinfold and Aubrey Kent; City Manager Cecil Wyatt and City Solicitor A. J. Patton.

Ald. Skillings will remain an extra day to attend the annual meeting of the B.C. Aviation Council, for which he was named delegate.

Failure To Renew Insurance Books Brings \$50 Fine

DUNCAN—Charged with failing to renew Unemployment Insurance books of his employees within the prescribed time limit, Eddie Forrest, Cecil Cafe proprietor, pleaded guilty in city police court Thursday and was fined \$50.

He said the offense had been an oversight on his part, as he believed it had been attended to by his bookkeeper.

It was the first case of its kind to be taken before the Duncan court.

Social Equality Eludes Mankind

Mankind will not reach a basis of social equality under present conditions, nor will Christianity win world-wide acceptance, Sir Robert Holland told members of the Rotary Club at their luncheon meeting Thursday in the Empress Hotel.

He said Christianity has been devalued by our democratic system, which reflects material rather than religious principles. As an example, he said the United Nations charter contains no reference to the Divine Creator.

Nothing Left Of Coalition, Bennett Says

"If there is anything left of Coalition, if there remains a vestige of responsible Coalition government in this province, the Premier would demand the immediate resignation of the Minister of Mines," declared W. A. C. Bennett, M.L.A. for South Okanagan, speaking at Jordan River in support of Cmdr. A. C. Wurtel, Esquimalt Independent, Thursday night.

He was referring to a statement attributed to Hon. R. C. MacDonald, minister of mines, at Alberni Wednesday. Mr. MacDonald is quoted as stating it was the Liberal wing of the Cabinet which was under criticism and that Conservatives should prepare now for the break-up of Coalition.

"In the annals of democratic government in this country I know of no similar breach, a damning of his Cabinet colleagues by a Minister of the Crown," Bennett added.

"But what makes the situation completely incredible is that the Premier says nothing in reply. Even when the Liberal wing of the Cabinet is blamed for all the criticism of the government, the Coalition premier is silent. Perhaps he has no answer. Perhaps he dare not answer."

Huron, Ontario Receive Big Welcome At Halifax

HALIFAX (CP)—Eastern Canada welcomed home her second Korean sea fighter today when the destroyer Huron sailed into Halifax harbor to a clamorous greeting. Cmdr. E. T. G. Madgwick of Halifax sailed the warship from her home port here Jan. 22 for a six-month tour of duty in Korean waters.

Also arriving was the cruiser Ontario, which accompanied Huron from Esquimalt, the destroyer's first stop on the way home. Both ships will remain here a few days before leaving to a rendezvous in mid-Atlantic with the Empress of France, carrying Princess Elizabeth and Prince Philip to Canada.

Bail For 3 In Cowichan Shooting Case

DUNCAN (CP)—Bail of \$10,000 each was set in police court today for each of three fishermen who appeared on charges arising from a running gun battle at Cowichan Bay last Friday.

The three are William MacDonald, 38; George Hubert, 21, and Albert Hergum, 24. All pleaded guilty to charges of illegal fishing.

No plea was taken on charges of obstructing a police constable, obstructing and assaulting a federal fisheries officer, and unlawfully shooting at a vessel in the service of the Government of Canada.

There, a navy band banged out "Hearts of Oak" amid whistles and horns, and the cries of wives and sweethearts.

The destroyer Nootka was welcomed home from Korea exactly one month ago.

There, a navy band banged out "Hearts of Oak" amid whistles and horns, and the cries of wives and sweethearts.

Cmdr. Madgwick spoke proudly of his crew, most of whom he "well-deserved" short leaves coming. "First class under all conditions," he said.

One trophy the Huron brought back from Korea is a turtle, beautifully mounted on a shield, and presented by the Cayuga when Huron relieved her early this year. The Cayugas thought the east coast warship was a little slow getting there, so inscribed on the plaque is "To Our Relief the Huron From Patient Cayugas. The Order of The Turtle."

Declaration Of Strength

THE OTTAWA DECLARATION, issued yesterday as the North Atlantic Treaty Organization adjourned its six-day conference in the Canadian capital, should leave little doubt in Soviet minds as to the determination of the democracies to continue preparations for defense against aggression.

The statement, subscribed to by the 12 nations participating, does not mention the U.S.S.R. specifically. But there was no circumspection in the reference to "a series of peace offers as vague in language as they are obscure in content (that) are made from time to time," and the flat assurance that "the peoples of the North Atlantic community will test these offers by the deeds that follow them."

Observers will have noted that the latter statement closely parallels the wording of Mr. Truman's recent message to Russia. They will have noted, too, the implications of the U.S. president's belief, expressed to the press in Washington even as the Ottawa meeting closed, that he expects Russia to keep only those agreements which western force impels her to keep. Otherwise, he said, a Soviet agreement is "not worth the paper it is written on."

These are strong words to be addressed to a nation which the speakers' countries are not at war, but they adequately represent the state of mind of the western peoples who have joined together for mutual defense. We have served notice that no propaganda, for peace or otherwise, will deter the west from its announced intention of building strength to combat strength. At the same time we have left the way open

for any genuine peace proposal by the Soviet which will prove to be more than empty words.

Crystallization of such policy did not occupy the delegates' whole time. It was appropriate that Ottawa should have been the scene of the first stages of long-range planning designed to implement the non-military aspects of the North Atlantic project. Canada will be one of five members appointed to recommend action on the co-ordination of members' foreign policies as they affect the promotion of peace; their closer co-operation in economic, financial and social fields; and their joint action as regards culture and public information. It was these aspects of the N.A.T.O. which the late Mr. King, Mr. St. Laurent and Mr. Pearson were largely instrumental in having included in the pact. They promise helpful collaboration, not only during the period of military crisis to meet which the organization was formed, but afterwards as well. They provide the strong practical core of truth to the announced intent of the N.A.T.O. to be a group whose predominant aim is peace and international progress.

The Kremlin, following the usual pattern, no doubt will brand the deliberations as war-mongering and capitalist propaganda. But it will be wrong on both counts. The Ottawa declaration is in the voice of 12 nations who wish to avoid war if at all possible, but who are preparing themselves to fight for their joint survival if such a test should be forced on them. That appears to be, as Mr. Truman suggests, the only sort of voice which the Kremlin can hear.

Hunters And Responsibility

AT DIFFERENT POINTS UP-ISLAND, members of public bodies and citizens have voiced angry criticism of hunters who are blamed for starting serious forest fires. The question has been asked why hunters were allowed to enter the woods at all in view of the hazards created by the excessively dry season.

These are justifiable protests against carelessness which is costing British Columbia a high price in destroyed timber, and inflicting on certain districts substantial expense as forces combat fire. To them could be added other protests a certain class of hunter invites. Far too often newspapers carry accounts of men who shoot indiscriminately at movement in the bush. On some occasions their targets turn out to be other humans. At other times they are quarry protected by law against their bullets, but just as dead once they are killed as is game legitimately shot. Over and above this, the newspapers almost invariably carry stories during the hunting season of individuals or groups who have been lost in the woods and found later only after searches have been made at considerable cost in time and funds.

These are continuing hardships, and sometimes tragedies, which a careless hunter inflicts on other members of the public.

Against them the public has little

protection. A Canadian citizen over the age of 18 and resident in the province for a specified time, can walk into the appropriate office with three dollars in his hand and obtain a license to shoot birds or deer. There is virtually no way to establish his sense of responsibility, his ability to look after himself once he has left the beaten path, or his judgment in respect to shooting a gun.

For every trigger-happy, match-careless, incompetent individual who goes after game with a gun, there are probably scores of responsible, competent hunters who follow the game trails. Nevertheless, it takes only one irresponsible individual to start a fire, to shoot another man, or cause the expense and inconvenience of a search.

Under these circumstances, can a lack of examination of candidates for hunting licenses be justified? Is it good enough to put a gun in the hands of anyone over 18 and turn him loose to blaze away merely because he has paid three dollars for a license, meets residence requirements in the province and enjoys certain citizenship privileges?

Far be it from us to attack the principle of a Canadian's freedom, but this is no longer the frontier era and some proof of responsibility should be required before a license is issued. Without it, license can take on its other connotation.

Let's Look At The Road Program

IN THE COURSE OF THE ESQUIMALT by-election campaign, questioners are challenging government spokesmen on British Columbia's road program. As was the practice in years gone by, potential voters are haggling on the question of secondary or less important routes of travel, contending more money should be spent in their particular district.

That approach is understandable enough. Most voters want all they can get from the government. The attitude shows scant appreciation, however, for the excellent highway program which the government has laid down and is determined to follow to the eventual advantage of the province as a whole.

Available funds and effort are now being concentrated on primary roads. Anyone who uses the Island Highway will appreciate the progress that has been made in this field. Our new roads bear comparison with those made anywhere.

This year a total of \$9,000,000 has been allocated to maintenance and a sum of \$12,500,000 to reconstruction and new construction, including bridges. That amounts to an aggregate of \$21,500,000.

Devoted to the projects for which plans have been made, that money will produce permanent value. Dissipated in innumerable small jobs to meet the wishes of every district, it would furnish little of lasting benefit.

When the primary highways program has been completed, the plan calls for attention to secondaries. At that time the applications of various localities for more work on local roads will deserve consideration.

The argument should be particularly clear to Esquimalt. At present the province is engaged in remaking a section of Craigflower Road at a cost beyond the ability of the municipality to meet. The project is justifiable, providing as it does an alternative link between Victoria and the section of the highway north of Craigflower Bridge.

Government spokesmen must, of course, expect special pleas for particular roads in all ridings of the province. At the same time, they may feel confident that the majority of citizens are behind them in adherence to the overall plan which is now placing our highways in better condition than they have ever been before.

Money Well Spent

BRITISH COLUMBIANS WILL NOTE with interest the remarks of Hugh Christie, criminology expert of the University of British Columbia, on the question of training personnel for prison work.

The efforts of this province to do more than punish offenders are generally understood. For economic reasons alone it is desirable to foster rehabilitation among those who have been sentenced. The cost of recidivism is too high to the taxpayer to be ignored when there is a possibility of correction reducing the numbers of those who repeat their crimes.

A Place To Meet

THE LARGE NUMBER OF CURRENT suggestions that Prince Robert House be used for meetings of this or that organization leave no doubt that a central building, with an adequate variety of rooms and facilities, would fill a definite need in this community.

Whether or not Prince Robert House is the answer—and there are many arguments pro and con—does not attempt to say. But it is obvious that numerous groups in the city would make full use of any centrally-located building with

convenient committee rooms and a lecture hall. The new home of the Arts Centre might accommodate some of these whose activities are aligned with the purpose of the building. But other clubs and societies appear eager to find accommodation, to an extent which apparently would keep the premises in continuous use.

The point is one well worth the consideration of a city council concerned with the encouragement of healthful community groups of all kinds.

France: Indochina And 'Dough'

By STEWART ALSOP

ON MANOEUVRES WITH A FRENCH BATTALION IN GERMANY: French soldiers, like other soldiers, are much given to arguing about what is wrong with their army. In any such discussion, two words are likely to be heard repeatedly throughout the cheerful battle of complaints. One is "L'Indochine." The other is "Le Fric," which is French slang for money. When this word is uttered it is always accompanied by an occult gesture consisting of extending the right hand, with thumb and forefinger touching to form a zero.

If those who may have to do the fighting are to be believed, France would have a great army again very soon, if it were not for the constant drain of the endless, bloody little war in Indo-China, together with the lack of ready cash in the French treasury. French general officers have no doubts at all about the spirit of their troops. To judge from the intelligence and cheerful energy with which the French recruits go about their business in the field, the officers are right.

AS FOR ARMS and equipment, French soldiers have little concern on this score either, since M.A.T. began to transform the French army from an army without arms into an army with the means to fight. The fact is that France is now visibly capable of putting into the field a first-rate army of about ten divisions. But French Premier Rene Pleven has promised to double the fighting strength of this army in a matter of months. One France's capacity to make good this promise a great many things, including the security of the United States, may depend. And it is when you begin to ask French soldiers how this promise is to be made good that you begin hearing about "L'Indochine" and "Le Fric."

BY THE VERY NATURE of the French military system, the French military strength depends utterly on the small core of regular officers and non-coms who have made the French army their career. These are the men, tough, hard-bitten, and among the best professional soldiers in the world, who must yearly transform about 400,000 French recruits called up from field and factory for eighteen months of service, into soldiers.

BUT EVEN NOW, there are simply not enough professionals to go around. This is partly because of Indo-China. Only the professionals, plus a few volunteers, are sent to fight in Indo-China, which means an endless drain on the core of professionals. It is partly also because a career in the French army offers few consolations. A second lieutenant, for example, gets about the pay of a street-car conductor, and if he has a family, unless he is very lucky, he can find no lodging for them near his post. Thus, whereas before the war, about three times as many young men applied for St. Cyr as were accepted, there are now hardly more candidates than there are places.

THE RESULT is that in a French infantry company of more than 350 recruits there are apt to be only one or two officers and three or four regular non-coms. Under the circumstances, it is downright astonishing that the professionals have done so good a job of turning recruits into soldiers. If the French military strength is really to be doubled, however, it is mathematically obvious that the number of men in uniform must be increased by extending the term of service to at least twenty-four months. Nor is this all. The reserve divisions on which French military power is really based must be kept in constant state of training and readiness, ready-always-for modern war.

WITHIN the French army all concerned seem to be agreed that the job simply cannot be done with the present core of professionals, and with the present camps and other training facilities. For an American the answer seems obvious—build more and better training facilities and attract more good men into the regular service by better pay and better living conditions. It is at this point that the French begin to mutter resignedly about "Le Fric" and to form a zero with thumb and forefinger. If the French government raised the pay of second lieutenants, they point out with a patient reasonableness, it would then be necessary to raise not only the pay of street-car conductors, but of all government functionaries.

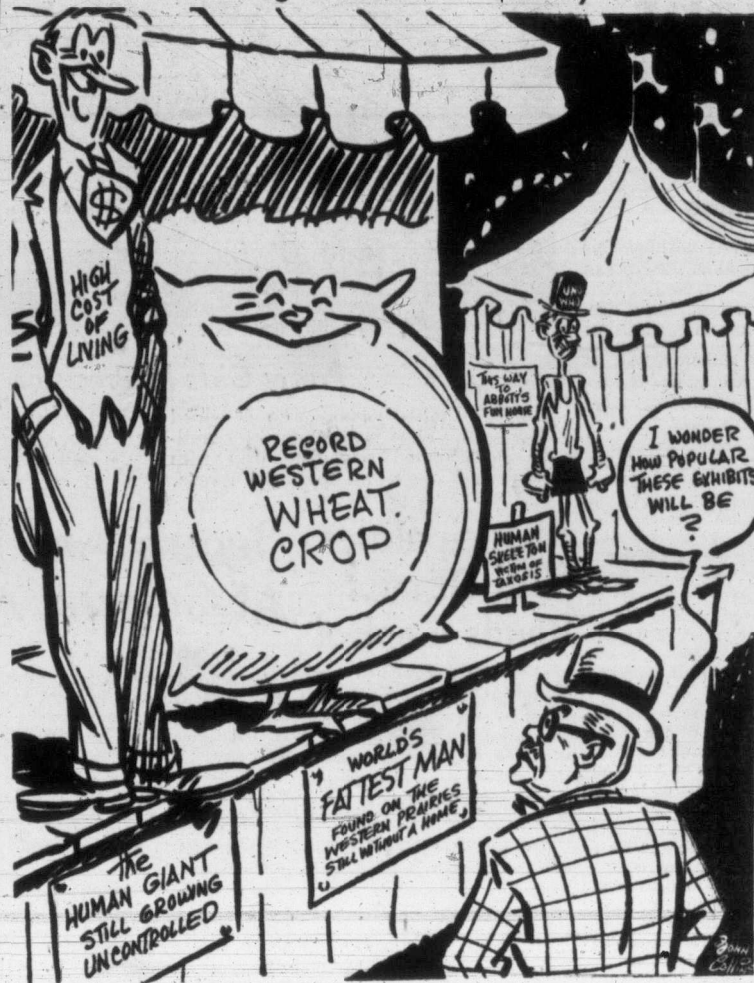

AS FOR CAMPS and other facilities for training reserves, already it has been necessary for financial reason to abandon almost all the excellent open-air camps built just after the war by Gen. Jean de Lattre de Tassigny. The problems of "L'Indochine" and "Le Fric" are deadly serious problems. If they are not solved, the great and necessary American investment in military aid to Western Europe may go down the drain. They are extraordinarily difficult problems, moreover, for a threatened government presiding over an economically enfeebled country to deal with. Yet surely, if intelligent understanding is forthcoming from the American government, such problems are, after all, perfectly soluble. And if they can be solved, France is wholly capable of making the military contribution to the defense of the West which must be made if the strategy of the Western alliance is to be a reality and not a sham.

Here Too?

Ottawa Journal

HERE is one instance where steady and persistent public education is paying off. It has been a long, and often discouraging, grind to create the present widespread interest in forestry, but today there seems to be evidence that there exists in Ontario a realization of the need for recovering cut-over and worn-out land. It means the continuation of our great forest industries in the future, better water control and less land erosion. But let the campaign press on.

Along The Ottawa Midway

Weather Synopsis

VICTORIA'S SUNSHINE TO DATE, 1951-2,422.2 HOURS

SYNOPSIS: A massive high pressure area centred in the northern Gulf of Alaska and extending into the Yukon and northern B.C. continues to shield B.C. from a series of storms which are moving southeastward toward the prairies. As a result generally sunny and warm weather will continue for the next two days.

A weak off-shore flow is keeping the sea fog at a minimum on the coast but is also serving to keep dry air funneling out of the Interior onto the coastal forests.

Winds will be light in all regions.

REGIONAL FORECASTS VALID UNTIL MIDNIGHT SATURDAY

VICTORIA: Mostly clear today and Saturday. Continuing warm. Winds light. Low tonight and high tomorrow, 52 and 75.

VANCOUVER AND GEORGIA STRAIT: Mostly clear today and Saturday. Con-

tinuing warm. Smoke layers. Fog in low areas during the early morning. Winds light. Low tonight and high tomorrow at Vancouver Airport, 45 and 70; at Horseshoe, 40 and 65; Nanaimo, 45 and 75.

WEST COAST: Clear and warm today and Saturday. Winds light. Low tonight and high tomorrow at Esquimalt, 45 and 65.

N.A.T.O. Blasts Russia's 'Empty Peace'

Concludes Five-Day Secret Meetings

OTTAWA (CP)—The North Atlantic Treaty Organization, with a blast at Russia's "empty" peace offers and with plans for bringing Greece and Turkey into the anti-Communist coalition, yesterday concluded a five-day secret meeting here.

The 12-member organization today enters a new phase in its two-year career with many problems ahead and with Canada's External Affairs Minister Pearson at the helm. He took over from Foreign Minister Van Zeeland of Belgium as president at the end of the council meetings and will hold the post for a year.

The decision to recommend admission of Greece and Turkey to N.A.T.O. was described by State Secretary Acheson of the United States as the "big, concrete, immediate achievement" in Ottawa.

He told a press conference it was not easy for some members to support a U.S. proposal that N.A.T.O. be extended to the Near East. But in the end the decision was unanimous. Earlier, Norway and particularly Denmark had pressed for a Mediterranean pact that would include Greece and Turkey.

The two countries cannot be invited to join N.A.T.O. until most parliaments have ratified the council's recommendation. However, it is understood that the United States, Britain and France have already substantially agreed on a separate N.A.T.O. command for the Near East.

BUILT AROUND TURKEY
Greece would be under Gen. Eisenhower's European command, but a new command would be built around Turkey. This command would possibly work out close military arrangements with other Eastern countries.

The reference to the Russian peace offers was contained in a statement, declaring the council's decision to expand its co-operation in such non-military fields as economics, finance, foreign policy and even culture.

Organized colonization of New Zealand started in 1840 with the New Zealand Company's settlement at Wellington.

HOME GARDEN

by Hilda Beasly

This week-end the last of the main vegetable crops will hold the home gardener's attention.

Celery, which is intended for winter use, receives its last earthing-up usually about four inches, or, where paper collars are used, the third four-inch collar is set in place.

Onions should be out of the ground and into storage by now. Remember that unripened bulbs will not keep, so set these aside for immediate use.

Parsnips are left in the ground over winter in this district, and they will have a decidedly better flavor after a few good frosts. Storage of these roots is a little difficult

to choose a sunny day when a fairly strong wind is blowing so that the warmth, combined with the air movement, will quickly dry the tubers and, thus, reduce the length of time they are exposed to light.

Watch all late-sown seedlings, especially winter lettuce and Scotch kale, and transplant them before they become leggy, also expose them to the air as much as possible to keep them hard and sturdy.

OFFERS BOUNTY

AMERSHAM, England (CP)—Councillor A. Stevens of this town in Buckinghamshire was annoyed by grey squirrels eating his vegetable garden produce. He offered half-a-crown for the tail of every squirrel shot within a quarter-mile of his garden.

Blood Canvass On Lower Island

The Red Cross Society's mobile blood collection unit will visit lower Vancouver Island next week, spending one day at Sidney and three in Victoria.

K. G. Mickleborough, chairman of the transfusion committee for the Victoria and district Red Cross branch, reports a committee of prominent citizens at Sidney was working most enthusiastically in preparation for the visit of the clinic to that centre Monday.

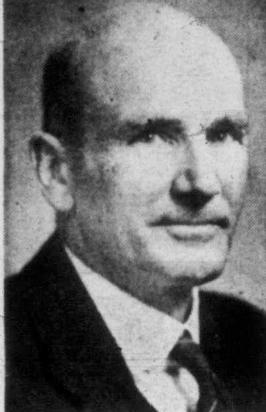

The unit will operate from 1.30 to 4.30 in the afternoon and from 7 to 9 at night.

Clinic sessions will be held during the same hours on Tuesday and Wednesday in Victoria. The unit will set up at Red Cross House, 1046 Fort Street.

Amazing Non-Smear Lipstick Stays On—and On—and On!

Stays on YOU...Not on HIM!

HE'LL LOVE IT—love you for it! There isn't a man alive who isn't annoyed and embarrassed by tell-tale lipstick smears. Now at last, you (and he) can say goodbye to all that with this revolutionary new non-smear lipstick that let's you kiss—and keep your secret!

Lasting Lipstick Makes Your Dreams Come True by Hazel Bishop

You've probably searched in vain, as I have, for a lipstick that would not come off, yet be color-true and fashion-right.

Professionally, I'm a research chemist, so that when I hunted in vain for a lasting lipstick, it was my good fortune to have the technical training to do something about it.

It took three years of constant experimentation to find one that would have not only all the attractive qualities of the finest lipsticks, but would have the unique advantage of being long-lasting and non-smearing.

When I finally developed what I consider the perfect formula, I asked my friends to try it. They were most enthusiastic! They told their friends. Their friends told others. It was then I decided to share my secret with women everywhere.

If you try my "amazing tissue test," I am sure you'll discover no other lipstick can compare in

long-lasting, non-smearing qualities and still give you such creamy, satin smoothness... such smart, color-true reds.

But only you, yourself, can be the final judge of the merits of my lasting lipstick. That's why I invite you to try it at my expense! If you don't agree it lives up to every claim, you'll get your money back.

'Unbelievable, But True' Say Grateful Thousands

Mrs. J. W. P., Boston Housewife: "With children and housework, I just didn't have time during the day to keep my lips made up—embarrassing when people called. That's why it's such a relief to put on Hazel Bishop's lipstick in the morning and know I look 'right' at all times."

Miss R. W. C., New York Secretary: "My boss is like most bosses—annoyed if I don't look attractive—annoyed if I take time out to make up. That's why Hazel Bishop's lipstick is a dream come true. One application and I'm set for the day."

Mrs. M. P. H., Washington (D.C.) Saleswoman: "My fiancé used to be very annoyed when I left lipstick smears all over everything, including him. Thanks to Hazel Bishop, everything goes so much smoother with us—and I do mean everything!"

Women Go Wild Over Sensational Non-Smear Lipstick That Won't Eat Off—Bite Off—Kiss Off!

NEW YORK, N. Y. Beauty experts and women everywhere are hailing the most exciting news in cosmetic history. It's HAZEL BISHOP'S amazingly lasting lipstick—the first and only color-true make-up you can put on your lips in the morning or evening—and forget! For it stays on and on until you want to take it off!

Now at last, say goodbye to unsightly "red grease" on glasses, china, silverware, cigarettes, or teeth. Never again be embarrassed by smearing your friends, children, relatives, husband, or sweetheart with your "war paint"—for this sensational lipstick will keep your mouth looking as radiant, fresh, and colorful as when first applied—even when you eat, bite your lips, or kiss!

Don't put up with lipstick embarrassment another single day. Right now come in to any of our conveniently located stores. Choose the Hazel Bishop Lasting Lipstick that gives you just the right glowing shade for your complexion and costume. With this assurance—you must be completely satisfied or your money will be refunded!

Amazing Tissue Test Proves It Won't Come Off

TRY IT YOURSELF! Apply HAZEL BISHOP'S Lasting Lipstick just as you do the one you're using. Press your lips together several times on a tissue. Pat off excess. THEN WIPE AS HARD AS YOU WILL! No color will come off on tissue! Or on anything else! It comes off when you want it to. Simply wash it off with soap and water, or cream off.

I have found the color remains where it belongs without smearing glassware, teeth."

Elizabeth Henney, Miami (Florida) Herald: "It's practically indelible...stays on your lips for hours and hours...even when you swim! Put it on, blot it off and it hardly comes off at all on glasses, cigarettes, or your best beau! When You Swim! Another good point, it won't come off on teeth!"

The Big News Is on Everyone's Lips!

Never before in cosmetic history has a new discovery become so popular in so short a time! Everywhere—Hazel Bishop's new Lasting Lipstick has achieved sensational success. Already, in 75 larger cities, it is the big news on everyone's lips! Try it today at our risk.

Donald Fleming Lashes Federal Housing Policy

Torontonian Says 'Promises Torn To Shreds'; Claims By-Elections Show Swing To Tories

Changes in the Federal Government's policy on housing broke faith with the Canadian people and resulted in a serious reduction in construction of badly needed homes, Donald Fleming, Conservative M.P. for Toronto-Eglinton, told the Victoria Federal Progressive Conservative Association last night.

Mr. Fleming recalled the government's promises on housing in the 1945 and 1949 elections, and noted the "second mortgage" plan was finally adopted. Recently, however, the government "simply dropped" this system, he said.

"This action chilled the hopes of thousands of Canadians who wanted homes," declared the speaker. "The government broke faith with the people and with Parliament. The government decided to override Parliament. The promises were torn to shreds."

Because of the government's change in housing policy, the M.P. said starts on new construction are decreasing every month.

"But this didn't stop the expenditure of \$613,000 on renovating and remodeling a home for the Prime Minister. The opposition didn't oppose the idea of a home for him. But it was against the work being done without an estimate or ceiling price," he stated.

Declaring that the government has started from close contact with the people, Mr. Fleming claimed the Conservative sweep of four recent by-elections was a fair and representative test of public opinion.

The record cost of living, Mr. Fleming said, is to a substantial degree the result of deliberate government policy. He criticized Finance Minister Abbott's budget and called him the "most inaccurate budgeter in Canadian history."

Dr. F. T. Fahey On Education Board

SASKATOON (CP)—Dr. F. T. Fahey, deputy minister of education for Nova Scotia, was named president of the Canadian Education Association Thursday at the close of the 28th annual convention here.

Members of the directorate included: Dr. F. T. Fahey, Victoria, B.C. deputy minister; H. N. MacCorkindale, superintendent of schools, Vancouver.

Savings At Peak

WASHINGTON (AP)—The American public has weathered two "scare-buying" flurries caused by Korean war and now is saving at a peacetime peak of \$21,000,000,000 a year, the Federal Reserve Board said this week.

McINTYRE TERMS GOVERNMENT 'ARROGANT AND DICTATORIAL'

An arrogant and dictatorial government cannot long survive. If for no other reason than its high-handed attitude toward the public, Coalition will fail. These are the beliefs expressed by Archibald McIntyre, independent candidate in the Esquimalt by-election battle, speaking at Metchosin.

He is swinging around the big constituency holding brief meetings in key points.

Tonight he speaks at Langford at 8.

The principal waterfall in Japan, at Nikko in the Island of Hokkaido, has an unbroken fall of 350 feet.

Mount Kosciuszko in New South Wales, highest peak in Australia, reaches an elevation of 8,328 feet.

Colwood Gives Percy George, Quiet Hearing

At one of the quietest meetings of the current by-election campaign in Esquimalt constituency, Premier Byron Johnson, Coalition candidate Mayor Percy E. George and Mrs. G. W. Kissick spoke to 80 people in the Colwood Community Hall Thursday night.

The audience, of traditionally Liberal Colwood residents, listened to Mayor George's review of his experience in civic affairs, beginning with activity in Parent-teachers' Association work, through school board membership and city council to the office he now holds.

"I am not here to lay down a platform," he said. "I cannot alter the platform already laid down by the government, and I don't know that I would want to alter its main principles."

He attributed most of the anti-government criticism heard in B.C. to newcomers to the province, and others who are not natives of B.C.

Premier Johnson, in what he referred to as a "report to the shareholders," gave the meeting a point-by-point review of pledges made in the Coalition manifesto issued before the election of June, 1949.

He freely admitted that some pledges had not yet been carried out, but added that they would be during the balance of the government's term in office.

"I have not heard from any group who would allow the Hospital Insurance legislation to be repealed," the Premier said, and added, "despite all criticism, I still think we're on the right track on hospital insurance."

Work On Steamer

Drydocking of the Princess Kathleen, originally scheduled for today, has been postponed until Monday.

An official of Victoria Machinery Depot, which is to carry out repairs to the ship's hull, said that preparatory work would be carried out for the rest of this week so that once the vessel was in drydock, work would go on at a rapid pace.

FINANCIERS DRAW LABOR CRITICISM

British Leader Attacks Big Business As Pre-Election Campaigns Under Way

LONDON (AP)—Party strategists toiled over policy statements today in an attempt to hammer out platforms for the Oct. 25 elections before the week-end.

Prime Minister Attlee makes his first campaign speech tomorrow at a Scottish Labor Party conference.

At about the same time, Winston Churchill and his Conservative aides will hold their first formal campaign session to complete the party's manifesto. Most of it has been drafted by R. A. Butler, who was education minister in Churchill's wartime coalition cabinet and now is one of the Tory brain trust.

The Labor manifesto probably will be given its finishing touches

at a party national executive committee meeting Monday.

The election campaign was already in vigorous progress with newspaper editorials sounding battle cries.

SHARP ATTACK

But the sharpest attack came from the Labor Party secretary, Morgan Phillips, who charged that yesterday's quick upsurge in the stock market proved big business was throwing in vast financial resources to end Labor's rule.

Values of stocks increased by millions of pounds in city trading. Companies that would benefit from unseating Labor and its nationalization policies after six years of rule shared heaviest in the buying advance.

A proposed dividend limit may never go into effect if Labor is beaten, and textile, brewing and industrial issues led in the buying.

Brokers quickly laid odds of 4 to 6 that the Conservatives will win. Such gambling is legal in Britain.

Phillips immediately showered Labor Party units, trade union members of Parliament and Labor candidates with postal cards charging that the boom tipped the Tory party's hand.

He said it showed that "their vast financial resources—backed by the big business interests of the city (financial district) of London—will be fully extended in an all-out effort to defeat the Labor government."

Defense Chief Says U.S. Ready For All-Out War

Needed Materials In Strong Supply

SAN FRANCISCO (AP)—The United States defense production chief said today the U.S. has the capacity to pour out 30,000 tanks and 50,000 planes a year—plus strategic stockpiles "to carry us through a year of total war."

Manly Fleischmann, defense production administrator, said in an address prepared for delivery at the American Federation of Labor convention.

Stockpiles of strategic materials needed to carry through a year of all-out conflict would be available even though the U.S. is cut off temporarily from foreign sources.

For example, steel capacity will be up 18,000,000 tons over the output before the Korean war. There is a 90 per cent increase in primary aluminum capacity, with proportionate increases in electric power "and the other things we need."

Fleischmann said the country is threatened by a "shrewd, veteran back-alley fighter" who would use "every dirty trick in the book—military, political and economic."

"Since the Soviet threat may be with us for a considerable period, and since one of its goals is to break down our economy," he asserted, "we must go about achieving rearmament in a way that will assure us the arms and the productive capacity we need and at the same time strengthen, rather than weaken, our over-all economy."

Police Prepare For Heavy Role In Royal Visit

Deputy Chief of Police Harry Mercer of the city police force is in the throes of the mammoth task of arranging for policing involved in the four parades involved in the Oct. 14-15 Royal Visit.

"Every man on the force, except for a couple away on statutory holidays, will be on duty during the visit," said the deputy.

He said that the police of the outside municipalities and the R.C.M.P. will co-operate with the city in policing the parade routes.

FIRING PRACTICE

Anti-aircraft firing practice will be carried out Sunday from the vicinity of Albert Head, between 10 a.m. and 1 p.m. mariners were advised today by the Department of Transport.

Further practice will be carried out from this location on Sept. 27, between 2 and 4, and on Sept. 28, from 10 a.m. to 3 p.m. Firing will be conducted seawards in an area bounded by Race Rocks and Brochile Ledge. The danger area will extend 11 miles.

Philpott Says Red Satellites To Attack Yugoslavia Soon; Soviet In Emergency

"I believe that Russia will use her satellite countries such as, Hungary, Bulgaria and Rumania to attack Yugoslavia," Elmore Philpott, noted newspaper columnist, told the Victoria branch of the United Nations Society at the Memorial Hall last night.

"This may happen within six months," Mr. Philpott continued. "The entire poverty-stricken nation is ready for an emergency."

Mr. Philpott who recently returned from a tour of Europe and parts of Asia, said that India is the most important country in the world today.

The reason given for singling India as world power was that

she could upset the balance of power.

"If she chooses the democratic way of life then that will mean that many more democrats for the western nations," he said. "She will decide the future of democracy."

He described the India's parliament as "good" and composed of many good debaters.

The speaker warned against Germany.

"I believe that if the western powers allow Germany to become a sovereign armed power again, Russia will trump our ace," he said. Russia will make the same kind of a deal with Germany as Stalin made with

Hitler before the two countries became engaged in war."

Mr. Philpott said Nazism was again flourishing in Germany. "The political picture is bad," he said, "and is of some concern to allied occupational forces."

Get Tea-Bisk at your grocers. Why not tomorrow?

IT'S MY VIEW

By BILL WALKER, Sports Editor

Like a television set on display in any local department store, the lacrosse picture was a little bit fuzzy today. The reproduction was clear enough. The Shamrocks had lost in six games to Combines. But there was a rather confused reaction to the filming of the sequel—the sixth game, won by the Combines.

The question was "Were the Combines the better team?" The answer was equally as confusing.

If the questioner happened to mean "were the Combines the better of the two teams which met in the league final?" then the answer must be "yes," the Combines were.

But if the query was worded differently—say, for example: "Were the Combines a better club than the Shamrocks who won the league race?" then the answer undoubtedly must be "No, they were not."

The Combines who won the right to meet Peterborough in the Mann Cup finals are a good club, not an outstanding club, but a club basically sound in fundamentals, and steeped in playoff experience.

However, the Combines who beat the Shamrocks are definitely not the club the Shamrocks were against North Shore Indians, nor the club the Irish could muster when Whitey Severson and Norm Baker were all in one piece.

Those are the Shamrocks we like to remember—rollicking crew which by straight drive and team spirit won, not only the hearts of Victoria, but caused a few palpitating beats on the mainland as they steamrollered their way to the top.

Severson's loss was felt much more than could be thought possible. Gone was that bouncing rubber ball. Gone was that staccato shriek "Get the ball; get the ball." Gone was that passing master who knew Archie Brown's every move. Severson's theory was that you didn't have to wait until a man was a step past his opponent before giving him the ball. Half a step was good enough for Whitey and he could hit a gnat between the eyes at 50 feet under such a setting.

Then when Baker came down with a soft-tissue injury to his toe, of all things, the image appeared as bleak as it turned out in the picture. The poise and class were still recognizable, but the lines were all mixed up.

Outside interference they call it in video. Fate is a better word for it.

With their two main colors missing, lenses had to be switched frequently to keep the object in the proper perspective.

The picture faded just a little at first before Duff McCaghey filled the screen with the clock in the background showing six seconds to play.

The haze was more in evidence when a close-up showed a Combine victory on the mainland but this diffused into brilliant technicolor in the third game under the multi-colored arcs in Memorial Arena. There was another running of colors when the scene switched to the small Kerrisdale screen and this was intensified on the fifth wide angle shot taken in Victoria.

Wednesday night the hue was brilliant as the picture again flashed on the screen, but an unnatural tinge appeared soon after 9 p.m. and the lens remained clouded until the end.

The Shamrocks had been beaten. Beaten by a better team on the night's play. Beaten, but never disgraced.

The reason? There are several. But experience seems to be the logical one. Experience and Combines arriving at their peak for the playoffs.

The best player? Archie Brown.

The most inspirational? Goggle Stewart.

The most underrated? Ernie Smith.

The unsung hero? Walt Lee.

The player most people felt sorry for? Bill Andrews.

The people most players felt sorry for? The Shamrock fans. The refereeing? Beyond reproach.

The most confused? The Intercity Lacrosse League Commission.

The most tragic figure? Joe Dukowski.

Yes Dear, Yes Dear, Yes . . .

A rugged man on a basketball or lacrosse floor, Norm Baker (right) is just putty in the hands of his wife, Nancy. In an air of determination, Nancy is telling her hubby that a few changes must be made in his athletic life. With a long lacrosse season just over and basketball just around the corner, Mrs. Baker wonders if she will ever see her husband except

between games. Baker is awaiting word from the Canadian Basketball Association to see if he will be reinstated as an amateur, enabling him to play for Victoria Individuals in the Intercity League. Wondering if he should say a word in the family tiff is Sid Watson, present manager of Individuals.

Petes Won't Meet Rocks But They'll Be Welcome.

FORD FRICK

Ford Frick New Baseball Commissioner

CHICAGO (AP)—Ford Frick, with a dramatic assist of sports-manship from Warren Giles, today is baseball's new commissioner.

Giles late last night threw his full support behind the National League president to break a deadlock of club owners and swing sports' biggest job to the grey-haired, lean, 56-year-old Frick.

Frick was given a seven-year contract at an annual salary of \$65,000, about \$25,000 more than he received as head of the senior circuit.

Frick is baseball's third commissioner. He succeeds A. B. (Happy) Chandler, who resigned last July 15 after the club owners had refused to vote him a new contract.

Until Giles, the courtly, white-haired president of the Cincinnati Reds made his unparalleled gesture, the 16 major league magnates had wrangled almost 11 hours in a vain attempt to get the required majority of 12 votes.

UNANIMOUS After Giles appeared before the owners and withdrew his name, the following vote was 14-2 for Frick. Then the Cincinnati executive made a motion that a final ballot be taken and that it be unanimous.

That is how Frick—climaxing a varied career running from newspaper man, assistant English professor and radio commentator to the National League presidency in 1934—obtained the full 16 votes.

Giles and Frick became the main candidates in a New York screening session last month that sliced the list from 11 to five names. Some 40 nominees had been mentioned when the search first began last Dec. 11, after the owners' explosive action in voting against renewal of Chandler's contract. Chandler bowed to pressure and resigned, effective last July 15.

OAK BAY CRICKET The Oak Bay Cricket Club line-up for tomorrow's match at Dunsmuir follows: Parkins, Sparks, Odgers, Thornton, Geauverau, Stuart, Dutton, Elliot, A. Wright, Higgs and K. Wright.

PETERBOROUGH, Ont. (CP)—Peterborough Petes fly west tomorrow in search of the Mann Cup and the Canadian senior lacrosse championship.

Winners of the Ontario Lacrosse Association's Senior A League finals last Saturday, Petes will battle for the Mann Cup against Vancouver Combines in a best-of-seven series. The first game is scheduled for Monday in the west coast city.

(An announcement is expected late today from the Canadian Lacrosse Association as to whether or not Victoria will host one of more games of the Mann Cup finals between Petes and Vancouver Combines.)

(Memorial Arena manager Joe Dukowski applied months ago to the C.L.A. for permission to stage one or more games in the eventuality that Shamrocks did not make the cup finals.)

But even if Petes fail in their bid they have earned credit enough by gaining entrance to the finals.

Three years ago they were booming along in senior B ranks. Then they rose to the senior A circuit and flopped. A rebuilding program was started that paid off this year.

Boosted by a number of top Ontario lacrosse players and one from British Columbia, the Petes led the O.L.A. most of this season and took the best-of-seven final from Mimico Mounties four games to one.

The feeling in the Petes' camp is that they'll defeat the westerners, but only after a stiff battle.

NUMEROUS IMPORTS All but five of the team are imports. Playing coach Don Crowe, a powerful defenceman, is a native Torontonian, but he's been in sports events around here for some 10 years.

Of the five home-breds, forward Arn Dugan was among the top 10 scorers in the league this season and Dootch Vitarelli is a first-string forward. Emmett Creighton and Joe Witnell are spare forwards and veteran Mick Magee is a second-string defenceman.

Goalie Moon Wootton, former Owen Sound net-minder, is one of the outstanding imports. Along with Harry Wipper and Jerry Fitzgerald, both defencemen from St. Catharines and both also

among the top 10 scorers. Wootton made the first O.L.A. all-star team this year.

Other St. Catharines products are Nih O'Hara, who played goal for Eddie Shore's Springfield team in the United States Hockey League last year, and first-string forward Bob Thorpe, who played hockey in the Pacific Coast League with Seattle.

Forwards Don Ashbee and Ike Hildebrand, the British Columbian, will not accompany the team west because of hockey commitments. Their places will be filled, however, by Merv McKenzie of Hamilton Tigers and Denny Peterson of Mimico.

Back in town with a record that Victoria can well be proud of is Bernie Anderson. Anderson has just returned from a highly successful baseball season with Redding, California, in the Far West Class D league.

Playing in the outfield, Anderson compiled a respectable 295 batting average, batting in 78 runs. In his leadoff position, he led the league in runs scored with 170.

Anderson is the property of the St. Louis Browns and it is likely that on the basis of his fine showing during the past season he will move up to class A ball next year, probably with Dayton in the Central League.

The 22-year-old local boy formerly played in the Senior A Amateur Baseball League as a pitcher-outfielder.

FIGHTS LAST NIGHT LANSING, Mich.—Chuck Davey, 147, Detroit, outpointed Danny Stepanovich, 146, Pittsburgh (10).

ARMY VS. NAVY Service Rivalry To Feature Ring Opener

The traditional Army and Navy rivalry will be the feature at the first card of the Victoria Amateur Boxing Association, Oct. 4, at the Victoria Ballroom.

Young Bruneau, representing the sailors, and Jack O'Hanley, a gunner from the artillery corps, will tangle in a middleweight scrap that will be the top bout of a 10-fight card. Both lads are reported to be willing scrappers with dynamite in both fists.

On the same card will be a four-man contingent from Albern, headed by the popular brothers' Bill and Bernie Hamilton.

Several other promising bouts have been lined up with the aggressive younger boys of the various local clubs.

The Victoria Police Club, under the coaching of Bill Knowles and Eddie Haddad, have been working diligently to build up a club that will command the respect of the entire province. They have at present 10 top rate fighters ranging in weight from 80 to 170 pounds. Their white hope is Earl

Yanks Start Vital Series With Bosox

Dodgers Close To N.L. Flag; Giants Beaten

Thanks to Joe Collins' timely home run, New York Yankees take one-half game American League lead in Fenway Park today for their vital dog-eat-dog series with Boston Red Sox. Eight of the nine remaining games are with Boston.

Cleveland, idle yesterday, gets its big chance to storm into first place while the Yanks and Red Sox wrestle. The Indians play three games with Detroit, a team they have beaten 16 out of 17 times this season.

Collins' blow off Chicago's Saul Rogovin with two on base in the eighth inning saved the Yanks from dropping out of the lead. Instead they opened up a half-game edge on the Indians by a 5-4 victory over White Sox.

The part-time first baseman also saved the game with a dazzling backhand grab of Eddie Robinson's smash in the ninth inning.

Rogovin had the Yanks eating out of his hand through the middle innings, retiring 12 straight batters from the second to seventh innings. He took a 3-2 edge into the eighth.

Phil Rizzuto's single broke the spell after Johnny Mize flied out. Mickey Mantle walked. Collins' blast into the right field seats cost Rogovin his eighth loss.

ALL BUT OVER While the American League threatens to grind down to the final day, the National has loosened up a bit. Brooklyn widened its lead to 4½ games by shading St. Louis 4-3, while the second-place New York Giants lost to Cincinnati 3-1.

Carl Erskine snapped Cliff Chambers' six-game win streak with an eight-hitter for his 16th victory. Gil Hodges' 39th homer helped him home.

COUGARS OPEN TRAINING

Joe Lepine To Play Elsewhere

One day of workouts at the Victoria Cougars' Saskatoon training camp has seen one member of last year's club sent to another team.

Joe Lepine, rugged defenceman with last year's champions, has been sent to an unnamed club by Montreal Canadiens, Cougars' parent club. Lester Patrick, owner of Cougars, is at the Canadiens' training camp and is carrying on negotiations with the Montreal club to secure players.

Coach Roger Leger reported to camp yesterday and after putting his squad through a stiff workout was said to be pleased with the camp.

Cougars have the option of picking up Bobby "Lugs" Rae of New Glasgow, who played last year with Halifax St. Mary's junior club. Rae has been placed on the Victoria negotiation list.

Match Play At Uplands

Medalist Bob Morrison will meet Don McLean in the first round of match play in the Uplands Golf Club championship Sunday. Defending champion Don Gowan will play Bert Davies.

Draw and starting times follow:

THIRD FLIGHT—

3.30—Whittemore vs. Harshorne; W. Smith vs. P. G. Williams.

3.45—C. J. Robertson vs. S. Watson; W. Luney vs. J. Ferguson.

4.00—E. Beveridge vs. G. Rennie; F. Hyslop vs. A. Baird.

4.15—Dunnell vs. E. Robinson; D. Woodhouse, bye.

FOURTH FLIGHT—

3.30—R. Williams vs. W. More; F. McChesney vs. G. Austin.

3.45—H. Stephens vs. E. Badmington; D. Johnson vs. O. Jull.

3.55—L. E. Williams vs. N. Neely; E. Mallet vs. Woodward.

4.10—J. Jeffrey vs. F. Sroog; Ferguson vs. F. Morten.

Catches 'Em Big And Teeny

Mrs. R. A. (Bert) Davies, wife of former basketball star, here shows that women can lure the big ones as well as hubby. Biggest one on the scale went 33 lbs. She caught four more, including the two in the picture. The handsome catch was taken recently at Campbell River.

Fire Fighters Take Utility Crown

Fielding one of the fastest clubs ever seen in the Utility Softball League, Victoria Fire Department won the city championship by defeating B.C. Electric Office Staff in a two-game final. The smoke-eaters won the first game and took the second by default. Back row, left to right: Eric Simmons, batboys Billy Smith and Danny Curran, Mike Belton. Front row: Gordon Hansen (manager), Alan Senior, Lou Park, Bill Jackman, Roy Reeves, Ed Ball, Al Curran, Gordon Smith, Danny Hansen (mascot). Absent when picture was taken was George Kulai.

Reverend Roe May Give Fiery Sermon To Tribe

O'CONNOR MAY JOIN CANUCKS

VANCOUVER (CP)—Buddy O'Connor, 35-year-old National Hockey League veteran, may play for the Vancouver Canucks in the Pacific Coast Hockey League this season.

Coach Murph Chamberlain said last night O'Connor is currently at the New York Rangers' training camp.

"If he fails to make the club, we get him," he added.

O'Connor is a 10-year NHL man and capped his career in 1947-48 after his trade from Montreal Canadiens to Rangers.

Marjorie Todd In Finals

The Victoria Golf Club women's championship play went into the final stages at the Oak Bay course today. Defending champion Miss Marjorie Todd, who defeated medalist Mrs. G. H. Mearns in the semi-finals, was scheduled to meet Mrs. G. E. Harris. Mrs. Harris eliminated Mrs. H. Patterson, 5 and 3, in the other semifinal bracket.

Second Round In Gorge Meet

Second round of match play in the Gorge Vale Golf Club women's handicap championship will be played Sunday.

Draw and starting times follow:

CHAMPIONSHIP FLIGHT
10:30—Mrs. A. Swan vs. Miss C. Davis
11:00—Mrs. K. Thirrell vs. Miss G. Widdow
11:30—Mrs. McIntyre vs. Miss R. Fry
12:00—Mrs. D. Smith vs. Miss R. Ward
12:30—Mrs. Crawford vs. Miss B. Hall
1:00—Mrs. P. Kersey vs. Miss W. Widdow
1:30—Mrs. K. Richardson vs. Mrs. M. Widdow

Browning Top Marksman In Intercity Playdowns

All those rabid lacrosse fans who expressed their dissatisfaction with the choice of the most outstanding player in the Intercity Lacrosse League playoffs have some undeniable figures to substantiate their arguments that Archie Browning deserved the honor over Gogie Stewart.

According to the final figures in the playoff individual scoring race, Browning was miles ahead of his nearest competitor. He scored 22 goals and 9 assists for 31 points, seven ahead of teammate Duff McCaghey who finished with 24. Browning scored 21 of his points against Vancouver Combines.

Stewart, the final choice as most valuable player in the playdowns, probably because of his inspirational play, finished in ninth place with 16 points, 10 of them in the Shamrock/Combine series.

Veteran Walt Lee, who broke

By OSCAR FRALEY
United Press Sports Writer

NEW YORK (UP)—Preacher Roe was in position today to knock out the brains of the guy who made him.

The preacher is a lean, left-handed guy who just scored his 21st victory for the Brooklyn Dodgers. He has lost only two games, which means he may set a new National League record for the best all-time pitching percentage.

But all this wouldn't have been possible if, back in 1946 and 1947, he hadn't been playing for the Pittsburgh Pirates. Nor if a man named Al Lopez hadn't been catching for the Pirates at that time.

That's the same Lopez who currently is driving the Cleveland Indians toward the American League pennant. And, if the Indians make it, the Preacher will be called upon by the Dodgers to go out there and shatter the world championship dreams of Roe's greatest benefactor.

Roe, who spreads 165 pounds rather thinly on a six-foot two-inch frame, has been little short of sensational this season. At 33 he has reached the pitching heights. For the Preacher has been the big man of the Dodger staff as he went the distance 17 times in compiling his 21 victories. Three of those victories were 10-inning marathons, too.

But there was a time, back there in 1946 and 1947, when the thin man from Ash Flat, Ark., didn't know where he was going. He was mediocre in 1945, even as strikeout king of the National League, but his ambitions were

Colwood Duo To Defend Golf Buttons

Vic Painter and Bill McColl of the Royal Colwood Golf and Country Club will battle with Bob Fleming and John Merriam of the Gorge Vale Golf Club in their third defense of the city senior golf buttons at the Colwood course Sunday.

Last season Fleming and Merriam successfully defended the buttons 16 times.

Painter and McColl regained the buttons a few weeks ago by defeating clubmates Laurie Kerr and Ken Lea.

The match starts at 1:30.

TAR HEEL NO HEEL WHEN IT COMES TO RECORDS

By FRITZ ROWELL
DELAWARE, O. (AP)—Tar Heel, one of Billy Direct's most illustrious sons, was spread all over harness racing's record books today.

The streamlined black colt, owned by the W. N. Reynolds estate of Winston-Salem, N.C., set four world records yesterday as he whipped 13 of the nation's stoutest three-year-old pacers to take the sixth annual \$66,280.55 "Little Brown Jug" in straight heats.

Some 35,000 fans, crowding the fence around the Delaware county fair's half-mile track, were stunned when Tar Heel came in 2.01 in the first heat—the fastest trip ever made by a three-year-old over a half-mile track.

But that was just the beginning. In the next heat reinsman Del Cameron brought Tar Heel under the wire in two minutes flat, erasing the world mark he had set up only two hours before.

The combined two-heat time eclipsed the world record of 4.05 4/5 set by Knight Dream in 1948; and also bettered the all-age pacing record for two heats of 4.01 1/4 hung up in 1940 by Dusty Hanover.

Island Horseshoe Meet Scheduled Here Sept. 29

Art Manson, secretary of the Greater Victoria Horseshoe Pitchers' Association, has issued a challenge to all ring tossers from up-Island to come down and try their skill in the Island championships Sept. 29.

Manson has requested that, if any of the Up-Islanders want to take part in the big shoe-throwers' jamboree, they should mail applications to him at 1054 Pandora Avenue before the 29th. The tourney begins at 9:30 in the morning. Entries from north of Victoria have competed in the annual championships before and have provided the locals with rugged competition.

In recent local competition, R. Jago, an C. Hawes became the new mixed doubles champs and won the Rennie and Taylor trophy, emblematic of supremacy in the A and B divisions.

Alex MacDonald, well known in lacrosse circles, won the John A. Worthington Cup by defeating Frank Knight in the men's city singles finals. The game was one of the closest ever seen in the city finals, MacDonald edging his opponent 50-49.

The two Coronation cups for club singles championships in the A and B divisions were won

LACKIE BACK AS COACH

City Ice Loop Opens Oct. 17

The Commercial Hockey League has set Oct. 17 as the tentative opening date for this season. The games this year will be played on Wednesday nights instead of Monday, as was the case last year.

Six teams will make up the loop. Entries have been filed by Army, Navy, Civil Service, Capitals, Douglas Tire plus a team filling the franchise owned by Dick Irving who last year managed Gladwell Meteors and this year has a working agreement with minor hockey.

The Douglas Tire franchise has been taken over this year by Jim Lackie, last year's Commercial League president.

Irving's franchise will help to take up the overflow of junior players who would otherwise be deprived of hockey with the folding of the Vancouver Island Junior Hockey League. Irving plans to build up the team around a nucleus of these younger players with several old

85 Entries For Seniors First Event

A total of 85 women, including golfers from Nanaimo and Cowichan, have filed entry for the first annual tournament of the Vancouver Island Senior Women's Golf Association.

Qualifying round of the tournament which is to be held at the Royal Colwood Golf and Country Club next week, will be released tomorrow.

Mrs. A. Blair-Patterson has donated a trophy for the best gross score in the qualifying round.

Other prizes will be awarded for best gross and net scores in all divisions. Competitors will be divided and sub-divided into "A" and "B" classes according to handicap.

World Series May Start Day Later

CHICAGO (AP)—Possibility that the World Series may start a day later than the previously announced date of Wednesday, Oct. 3, has been advanced by president Will Harridge of the American League.

The popular ringers' competition is due to begin Sept. 24, with MacDonald playing the role of defending champion. Each contestant is given 50 pitches and plays by himself, the winner receiving the James Adam Cup. MacDonald has won the bauble three times, taking it last year with an amazing 23 out of 50 score.

GROMYKO CHARGES ATTEMPTED ENTRY INTO SUITE ON LINER

PLYMOUTH, Eng. (AP)—Andre Gromyko touched off an early-morning alarm on the liner Ile De France today by reporting that someone tried to enter his \$1,100 luxury suite.

The Soviet Deputy Foreign Minister, en route home from the Japanese peace treaty conference at San Francisco, called a steward and said he had found one of the doors to the suite unlocked.

"Somebody has entered or tried to enter my room," Gromyko told him.

The steward called night watchmen who searched the area thoroughly but found nothing amiss.

Gromyko finally dismissed them, locked his door and gave orders he was not to be disturbed during the liner's stop here.

"Choose Your Own"

FROM CANADA'S ONLY CEREAL ASSORTMENT

Kellogg's VARIETY PACK

"Now I can serve 6 choices at one time! Kellogg's VARIETY makes breakfast so easy! And so easy to please—with nutritious corn, wheat, rice—in crisp flakes, shreds, or pops!"

How Good Can Coffee Taste?

To find the answer—"cream" your coffee with Carnation Evaporated Milk. Even the best cup of coffee tastes better with Carnation—richer flavored, smoother, more appetizing. Yet Carnation costs only about half as much as light cream. Try it. Discover why millions of critical coffee drinkers prefer Carnation to cream in coffee.

Canada's Greatness Sure If World Can Avoid War

Rockies No Barrier To West's Progress, Skeptics Deserve Kick, Says CBC Expert

By DICK PRAUL

A sort of human bombshell—John Fisher by name—hit Victoria yesterday and was away again today to slug and rock Canadians in some other city with the realization that Canada may be one of the biggest nations of tomorrow.

Putting away on his cigar in his room at the Empress Hotel, Mr. Fisher—roving CBC reporter from Toronto—said he'd "like to fashion a swift kick for those Canadians who say our country is too empty, that the Rockies are a barrier, that the prairies can't be populated, and that the north country is an isolated ice-box."

In P.C. on a speaking and information-gathering tour, Mr. Fisher let go plenty of compliments for Canadians, in addition to the roundhouse rights.

He asserted: "I honestly feel this country is it!"

"The fusion between the U.S. and England here makes us a young and exciting country! Who ever said we're dull!"

"Canada is the best-managed nation in the world today. And that's because there's an eternal balance to everything in our life."

"Canada can add something to the role of mankind... if only the world can be kept smiling and away from war."

MORE PEOPLE NEEDED

Mr. Fisher would like to see Canada's doors opened a lot wider to let more and more people in.

"If we brought in more people we would get at the root of higher costs that plague us so," he maintained. "The U.S. sells cars, refrigerators, washing machines, and other things much more cheaply, so we're inclined to look at the U.S. as a kind of promised land. But with more people, we'd reduce our costs and prices and speed the development of our way of life, too."

Canada is fortunate "to be able to grow up in an age of science and engineering development," Mr. Fisher feels.

"Who knows," he asked, "maybe before long the great Canadian forests may become food reservoirs. Already experiments are starting in other countries to derive food from forest products."

And with that, the plump, dynamic Mr. Fisher—who earlier had tossed an assortment of bouquets and brickbats at a luncheon session of B.C. municipal engineers—abruptly arose, snuffed out his cigar, took an aspirin, and hot-footed it to the side door to catch a limousine for the airport.

French Academy Language Award To Quebec Priest

QUEBEC (CP)—The French Academy has awarded Le Prix de la Langue Francaise (French language prize) to Abbe Arthur Maheux, professor and author who writes and lectures about Canadian unity and the value of French culture to Canada.

Abbe Maheux, archivist of Quebec Seminary and Laval University as well as of the Royal Society of Canada, has been informed of the award by Robert D'Harcourt, secretary of the Institut de France.

The prize, awarded for services to the French language "rendered outside France," was given the 66-year-old Quebec priest for "most generous and most enlightened devotion to French language, thought and spirit."

JOHN FISHER

DO YOU COOK?

Then you will want to know about Marmite

Marmite yeast extract has a rich appetizing flavour that makes cooking seem twice as good. And it contains Vitamins of the B Complex that build up health and resistance to infection. Put a little Marmite in soups, meat dishes, sauces and savoury dishes. Enjoy it in sandwiches, on toast or as a hot drink.

There are so many ways Marmite adds flavour and they all add goodness too.

MARMITE
YEAST EXTRACT
In 1 oz., 2 oz., 4 oz., 8 oz. and 16 oz. tins.
Obtainable at all Food and Drug Stores.

VANCOUVER, B.C.

German Peace Meet Starts Next Week

BONN, Germany (AP)—The Allies start negotiations here next week with the Germans on a peace contract, and western officials expect at least four months of bargaining.

The three Allied high commissioners probably will meet with Chancellor Konrad Adenauer, Monday or Tuesday, to discuss the big three foreign ministers meeting in Washington last week.

Later Allied and German officials will begin preparing the final drafts of the arrangement to give the Germans broad freedoms and membership in the western defense system.

Reduced Rail Fares During Royal Visit

MONTREAL — Reduced rail fares for persons traveling to stopover points on the itinerary of their Royal Highnesses the Princess Elizabeth and Duke of Edinburgh, during their tour of Canada, was announced Thursday by J. A. Brass, chairman of the Canadian Passenger Assn.

The reduced fares will be applicable from all points in each province to the points of stopover in the same province. Round-trip tickets will be sold at the rate of a one-way coach class fare plus one-half.

WHAT YOU SHOULD KNOW ABOUT CARNATION

CARNATION is milk, made double-rich by evaporation. It is heavy enough to whip. And it is homogenized and heat-refined, so the last drop in the can is as creamy as the first.

USE IT LIKE CREAM in coffee or tea... on cereals, fruits and desserts... in recipes that call for cream.

FOR EVERY MILK PURPOSE mix half Carnation, half water, to get fine, pasteurized, whole milk—but extra smooth and extra rich in vitamin D. Get Carnation next time you shop.

Carnation MILK

"From Contented Cows"

P.S. For little girls, Richard Hudnut Children's Home Permanent, the only home permanent made especially for children's fine-textured hair!

One-Night Army Closing On 3,000-Member Goal

The army of canvassers for the Community Chest, which needs 3,000 volunteers to make a success of the one-night campaign Oct. 1, is rapidly acquiring strength.

Bert Binney, campaign manager for the drive, today summarized the canvassing picture to date: Almost every organization in the city is behind the effort to collect "One Third More at Your Door."

Junior Chamber of Commerce and Life Underwriters' Association will do the city's business canvass the day of the campaign, and the Canadian Arthritis and Rheumatism Society will do a similar job outside the city area.

LONG LIST OF HELPERS

Willingness to undertake residential canvassing in the whirlwind evening collection has been shown by St. Vincent de Paul Society, Community Chest Board, Red Cross, Victoria Symphony Society, Y.M.C.A., Cosmopolitan and Optimist Clubs, Y.W.C.A., Victoria West Community Association, the three Kiwanis Clubs of Victoria, Oak Bay and Victoria North, Rotary Club, Victoria and Camosun Gyro Clubs, and Victoria and Esquimalt Lions Clubs.

SCHOLARS ASSIST

Jayceettes will canvass hotels,

and the Kinsmen Club will cover multiple dwellings. More than 300 helpers are required for this division, and 80 volunteers from Victoria Normal School Wednesday. More are expected after tonight, when Norman Foster will

tell members of the Victoria Girls' Drill team of the need.

Help has also come from the Parent-Teachers' Association, where Sir James Douglas and Monterey groups have provided lists of canvassers. More volunteers will be required, Mr. Binney said, suggesting that persons interested either call at the campaign office 647 Yates Street, or telephone G 0581.

Highest cliffs in the British Isles are the 2,000-foot cliffs of the north coast of Achill Island in Ireland's County Mayo.

By ART STOTT

When you talk to people back from visits to Europe, you'll often find up discussing old buildings. After you've gone through the conventional routine on architectural grandeur, the conversation will move a little hesitantly into the "feel" of the places.

Returning tourists are ready enough to admit that some dank dungeon in an old castle gave them the creeps. They're a little more diffident in their talk of what some people call psychic experiences. They don't want to appear barmy so they skirt gingerly around admissions that they sensed the presence of past generations of people who are gone, in some of the buildings they visited. They aren't willing to apply that "Berkley Square" atmosphere to themselves. Too spooky.

AT THE SAME time, they'll agree with you, if you make the right suggestion, that old buildings have character, that the atmosphere of them is impregnated with some human personality. Often it's a kindly, serene benediction that seems to persist, a feeling of being among gentle scholars of a former age in such places as college cloisters, of peace and meditation in an old church.

You don't draw a comparable reaction from a shiny new building. It hasn't had time to reflect much more than the structural design of the architect and the competency of the workman. But, given time, it probably will be enriched by the atmosphere its tenants give it.

If you were inclined to that line of thought, you'd probably have felt hopeful over the future character of Spencerhouse, had you been one of the hundreds who wandered through it Wednesday. The social welfare centre is glittering new at present. It is a practical monument to a fine humanitarian ideal—a place where groups interested in helping those who need help can do a more efficient job. That, in itself, gives the building character.

BUT THE YEARS ahead will add a warmth to the structure. To it will come people in trouble and in it some measure of comfort will be given to them. You saw that as you watched folk inspecting the premises Wednesday. Some came merely out of curiosity. Others took in the open house because it was the thing to do. But mingling with the crowds were Victorians who have put their hearts into the work of making life a little easier for those who are unfortunate. You saw their interest in the new facilities not so much in the light of clinical efficiency as in a recognition of the greater opportunities to help that such facilities provide—a sort of understanding that now their efforts to do something for someone else would spread out far beyond their earlier capacities.

YOU WERE impressed by the modernity of the new centre, by the way provision was made to furnish better service. But you were more impressed by the sentiment that there was a means of meeting in changing times the needs that were met in a smaller town by the good neighbors.

You felt, too, that the donors of the establishment had that in mind. You were unwilling to accept the idea that this would be an impersonal establishment created to dispense formal assistance to individuals who had lost their identities and were only entries in a case book. And you were content to wait until the years give it the warm, human personality that comes from the heart and spirit of those who serve in it.

Engineers To 'Play Hooky' From Confab

B.C.'s municipal engineers—immersed for the past two days in technical problems at their ninth annual session at the Empress Hotel—will "play hooky" tomorrow and go fishing.

One hundred and thirty-five of them from throughout the Island and the B.C. mainland were looking forward to taking part in a fishing derby tomorrow afternoon on the preserve at the Oak Bay Beach Hotel as a windup feature of their three-day parley.

Today the delegates heard papers on "Pre-stressed Concrete," by M. K. Douglass, of Vancouver; "Fire Protection," by R. M. McLeod; "Water Main Across the Fraser," by Charles Jones, Richmond; and "Superannuation Fund," by W. H. Forrest.

The delegates are to visit the Dominion Astrophysical Observatory at 6:30 this evening and will visit points of engineering interest in Greater Victoria tomorrow morning prior to the fishing derby.

A talk on the Inns of Court in England was given Thursday night to the delegates by W. H. M. Haldane, K.C., at the convention banquet.

MILLS STILL CUT RESERVE LOG PILES

One Plant Works On Stockpile

Major Victoria sawmills are still operating regular shifts and cutting reserves of logs, according to a survey made today.

Crowe-Gonnason Co. Ltd. sawmill, however, has been closed for some weeks due to the drought-forced log shortage, and is running its manufacturing plant on stockpiled reserves of rough lumber.

Manning Timber Products Ltd. is continuing its policy of running one full shift at its sawmill instead of the normal two shifts.

"We don't like this situation, where we have to cut our winter reserve of logs," one mill official said. "Everyone in the sawmill industry is hunting for logs."

Larger mills and logging camps have balanced production so that mills can cut in 12 months the logs produced in the eight to 10 months per year of logging weather. The forest closures this summer, however, have forced the mill operators to cut timber ordinarily held in reserve for the winter.

Wurtele Scouts Esquimalt Loan Possibility

Esquimalt is regarded as being in such a healthy financial condition that the municipality's borrowing power could be extended to \$800,000.

This was reported today by Councillor A. C. Wurtele, chairman of the council's public works committee, after a meeting with B. C. Bracewell, deputy minister of B.C. municipalities.

Councillor Wurtele indicated the municipality would have no difficulty floating a loan to underwrite an extensive public works program.

Such a program, to include road work, drainage and sidewalk construction, has been discussed on many occasions by the municipal council and was the chief reason for Councillor Wurtele's call on the provincial department deputy.

The councillor said he would report on his meeting with Mr. Bracewell in more detail at the next meeting of Esquimalt council.

THIEVES LIFT HEAVY LOAD

Two tons of No. 1 scrap iron worth \$80 was stolen from the rear of the bottle exchange building on Discovery Street during the night, Tommy Paine told police.

A battery was stolen from a shed on the Moore-Whitington mill property. Entry was gained by springing the padlock.

Rally To Help Disease Victim

Efforts of Langford residents to raise \$1,000 necessary to provide treatment in a Tacoma clinic for multiple sclerosis victim Owen McLeod, 31-year-old war veteran, have been strengthened by support from three Colwood groups.

Members of the Colwood Community Club, Parent-Teachers' Association and Women's Institute are campaigning for district support of the benefit dance at the Colwood Community Hall Sept. 28. The dance will climax a drive for voluntary contributions.

Drill Team Helps Fill City's Chest

Victoria Girls' Drill Team has volunteered 100 per cent to canvass for the Community Chest in its one-night drive Oct. 1.

The members will work with the Kinsmen Club on the collection of apartments and other multiple dwellings.

From 80 to 85 girls will take part. Others have already volunteered to canvass with other groups.

FREIGHTER TO DRYDOCK

The Canadian freighter Lakeside, scheduled to load 56,000 feet of lumber here next week for Australia, will enter drydock at Esquimalt tonight for a hull inspection. The routine check-over will be completed in a few days.

City Quartet To Tour

The Continentals, Bud Glover, piano; Wally Grieve, drummer; Jack Beresford, guitarist; and Clare Anderson, bass, leave tomorrow for Portland. This is the first step in a west U.S. tour of night clubs over the next six months. It was a tip from entertainer Bob Gentry, visiting here, which brought his agent up to hear the boys. He signed them. (Sirocco photo.)

NO HINT FOREST CLOSURE LIFTING

Small Mechanized Army Fighting Fire On Mount Benson; North Side Contained

There is no hint of a possible lifting of the forest closure which has thrown thousands of British Columbians out of work.

Thursday's winds, a forestry official explained, further aggravated the situation in the tinder-dry forests.

"The situation is unchanged," he stated. "It will remain that way until there is rain or at least a change in the atmospheric conditions."

Officials said 890 men, 26 bulldozers, three pumps and 38 power saws are being used to battle the big, Mount Benson blaze.

There was a small breakthrough this morning near Lake Road, but the north side of the fire

Trick Traffic Lanes Trip Culprit, Counsel, Court

If you drive on the outside lane, marked for a left turn, you turn... or you pay. That is the way the police interpret the traffic regulations. That is why Kai Otto Ulrich, 1865 Christie Way, came to court today.

Ulrich was proceeding south on Douglas. On reaching the Pandora intersection while in the lane closest to the centre line marked, "left turn" he did not make the turn. He was ticketed by Constable Donald Buie for an illegal manoeuvre.

Ulrich had pleaded guilty to the charge, but explained to the court that he understood that you had to be in that lane to make a left turn but that you could go right through if you wished.

Magistrate H. C. Hall and acting prosecutor Gordon Poupore agreed that they had the same understanding. They believed

Back Not Broken

Oswald C. Carey, 1330 Yates Street, delivering milk for North-western Creamery, on Mason Street this morning suffered a bruised back in a fall down a stairway. First report his back was broken proved false.

'FRANKLY, I LIKE IT'

Only One Woman Among 135 Men

At the speaker's table in a room crowded with 135 municipal engineers from throughout B.C. sat a lone woman, pleasantly chatting away and entirely at her ease.

For it is still a man's world for Mrs. Margaret Ecker Francis, of Vancouver, first woman correspondent with the Canadian Press, and world-traveler extraordinaire.

Today Mrs. Francis operates a P.C. public relations and editorial office, and her current assignment is "covering" the ninth annual meeting of the municipal engineers' division of the B.C. Engineering Society at the Empress Hotel.

"Everybody noticed, of course, that I'm the only woman in this convention," Mrs. Francis declared. "But that's nothing new to me. I don't notice anything different. I'm used to working with men—and, frankly, I like it!"

As Margaret Ecker, Canadian newspaper readers knew her as the intrepid woman reporter who filed human interest stories on Canadian and other Allied troops in England, France, Holland and Germany during the Second World War.

Nanaimo Fighters Draw 7-Mile Line

Lighter Winds Hold Hope For Checkmate Within 48 Hours

NANAIMO—Chief danger in the huge forest fire here, held in check at nearly all points, is a front moving very slowly around the north side of Mount Benson toward the farming area of Wellington.

Weather forecasts indicate much lighter winds for the area today, and firefighters hope to hold the flames in check some seven miles from the city centre.

At Extension, Harewood and along Nanaimo Lakes Road a force of 700 men and 20 bulldozers is holding its own against the fire. Bulldozers were driven inside the fire area, where they pushed down burning snags that threatened to spread the fire, still burning on a six-and-one-half-mile front.

The city is shrouded in smoke like a light fog. At the Indian Hospital near Camp Nanaimo flying ash has become a nuisance, but there is no danger and patients have not been moved.

Only "hot spot" was reported from Northwest Bay Logging Company operations, where the fire is burning in the Parksville ranger district. Almost 400 men are on guard at the fire's north end.

Both Nanaimo and Harewood fire departments, under Fire Chiefs Murph Wardill and James Anthony, are working with the Forest Service and army forces on the outskirts of the city.

District civil defense forces also have manned the fire lines.

No Deep Shelters To Be Built Here

Lack of money, manpower and material will prevent general construction of deep air-raid shelters in Canada, Maj.-Gen. C. R. S. Stein, provincial civil defense co-ordinator, told the municipal engineers' division of the B.C. Engineering Society, Thursday, at a meeting in the Empress Hotel.

He added that protection could be provided by strengthening basements and ground floors of existing buildings.

Finds Thief's Marks

A burglar made an unsuccessful attempt to get into the wholesale warehouse of E. A. Morris Ltd. on lower Yates Street during the night. Constable Andrew Bell, while checking premises for security at 4:15 this morning, found marks on the alley door lock indicating the attempt.

Crowd Cheers 'Y' Show

Over 250 people saw the show Red Triangle Revue the Y.M.C.A. Club put on last night at the Legion Auditorium, and cheered featured performers Peggy Schoon, Kathy Packford, Helen Wilson, and dancers from the Florence Clough Academy. The final show starts tonight at 8:15.

NEWARK, N.J. (AP)—Monte

Irvin, the New York Giants hard-hitting outfielder, will run for the New Jersey assembly, on the Democratic ticket in November, the Newark Star-Ledger said today.

"It seems a long time ago now when I was over there," she recalled. "But some things that happened will always stay in my mind. I guess. Like the time the good people of Eindhoven, Holland, made a Christmas dinner for us of our nations, and the May morning we wandered into the horrors of the newly-liberated Buchenwald prison camp."

But, to get back to the present, Mrs. Francis likes her new work, first-rate. Her husband, Robert, works with her in a combined free-lance operation, and they travel a lot.

The team of Francis and Francis went to Australia in the spring to collect material, and Mrs. Francis is recently back from a trip to eastern Canada.

"Writing has always been in my blood, I guess," she admits. "When I was 11 I told some editor I wanted to work on a paper when I grew up. Then, after I was graduated from U.B.C. he remembered my pledge and gave me a job."

Mrs. Neel with Provincial Museum totem.

Indian Woman Follows Trade Of Grandfather

By HUMPHRY DAVY

It's in the family to carve totem poles.

This is what Mrs. Ellen Neel of Vancouver, one of the best totem pole carvers in the province, said on arriving here today for the purpose of exhibiting some of her work at the Lions Sportsmen's Show in the Memorial Arena.

Her grandfather, Charlie James Yakuglas of the Kwakiutl Tribe, is probably the most celebrated Indian totem pole carver in the province. His works today are prized by collectors of Indian art.

Mrs. Neel is following in her grandfather's footsteps. Her carvings have found their way to England, France and Switzerland. She carved the 60-foot totem pole which stands in the grounds of the University of British Columbia and the totem in front of the Victoria and Island Public Bureau on Douglas Street.

Mother of six children, Mrs.

All He Wanted Was Breakfast

Six policemen in three cars converged on the 900 block of Kings Road at 5:09 this morning to block escape after R. Creed, 941 Kings, had telephoned the station someone was trying to break into the store below.

It was a false alarm. The officers found Albert Johnson, 2626 Blanshard Street, trying to raise the cook to get breakfast.

FOR FUN!

SHOPPING GUIDE

If Worst Comes To Worst,
Do The Repairs Yourself!

By PENNY SAVER

"John, I can't stand it any longer. If you don't fix that loose board on the back stairs I'll scream!"

"But Mary, you know I had to go golfing with the boys on Sunday. I'll fix it this week-end."

And so it will go on through the days.

Next week-end will come and go and the chances that the loose board (just a small example of many odd jobs that need doing) will probably still be unattended and ready to trip you up and break your neck.

Since women are becoming more and more independent (or maybe it would be better to say, talented), why not show John up by getting out there and fixing the "blinky-blank" stair work yourself?

"Dandy idea," you say. "I'll do it right now."

Maybe you will, and maybe you won't!

Wait till you take a gander at those monstrosities your husband calls tools. After all, you might just as well fall down the stairs as try to swing the hammer he has for pounding in nails. Just remember, the idea is not to rebuild the house, just fix one step in a few minutes as possible.

Try and tell John this and no

doubt he will come back with some long spell in technical terms about all the work involved. Ten-to-one it doesn't mean a thing.

For this and other odd jobs around the house there are numerous gadgets you can get to help you.

A small tack hammer is only 29 pennies. Mind you, it will not be large enough for the stair job. For that you may want the size that sells for 95 cents.

At \$1.49 I saw a small compass saw with three blades that can be changed to accommodate whatever you are tackling.

A brass and steel screw-driver, with extra pieces concealed in the handle is really something and is only \$1.19. They say you can use it on hunting and fishing equipment (which ought to be John's feel good), automobile repairs, as a home tool kit, for the hobby shop and the machine shop. Should make the whole family happy.

Small plastic handle screw-drivers are 10 pennies. The next size is 49 cents, and the next 69.

To save your nails and hard wear on your hands you should have a little gadget that is actually a razor blade with a handle. It can be used to scrape paint off glass, as a carton opener, a pencil sharpener, a left-handed knife, and for heavy duty cutting. Only a quarter.

Needle-nose 5 1/2-inch pliers sell for 59 cents, flat-nose pliers are priced at 39 and 79 pennies. A good quality pair of wire-cutters are 79 cents.

Open House At Y.W.C.A.
Of Interest To Many

A full program of activities for all age groups was presented at the Y.W.C.A.'s open house held recently. The exhibit of recreations, clubs and classes showed just a small portion of the "Y's" work.

Presenting the case for the "Y" was program director, Miss Kay Burt-Smith, assisted by a capable force of staff members, resident girls and instructors.

A diversified program for active, teen-agers interested in playing badminton to housewives interested in reducing their waistlines has been drawn up.

One of the busiest spots in the "Y" building was the information booth where program circulars and registration forms were being handed out.

Throughout the rooms there were displays arranged by members of the Chatelaine Club, Overseas Wives, Junior Y-teens, Sub-debs, Square Dancing Club, leatherwork and smoking classes.

The following program, dependent upon registration, will be carried out during the next few months:

Monday, 5 to 7 p.m. Y-teens, 12-14 years; 8 p.m., public speaking, badminton.

Cadboro Bay
School Shown

Harry O'Donnell, principal of the new Frank Hobbs Elementary School, Cadboro Bay, welcomed 200 guests to the school Wednesday evening from that district.

Introduced to the gathering were teachers, Mrs. Emily Milhouse, Mrs. D. Woods and Miss Jean Kerr, and supervisors on staff at the Greater Victoria School Board, Miss Marion James, Miss A. Turner, Miss Edna Lawrence and Harold Bigsby.

Dennis Brown outlined functions of the school board.

Frank Hobbs, pioneer of the district and member of the school board of Saanich in early days, was among guests.

Following a tour of the building, guests assembled in the auditorium for tea, served under co-sponsorship of Mrs. C. Martin.

P.T.A. Notes

North Ward—Mrs. L. Kermode presided at meeting of North Ward P.T.A. and J. C. Nimmo showed color films and spoke on his recent trip to Europe.

Principal A. Stevenson introduced his staff and spoke on school procedure, class and grade changes for the year. Plans were made for a bazaar in November, a whist party on Sept. 26 and a sewing meeting at the home of Mrs. M. Lunt, 731 Princess Avenue on Sept. 27. Refreshments were served by Mrs. M. McLeod.

Burnside—New principal W. J. Orchard was introduced by president, Mrs. G. Osborn, at recent meeting of Burnside P.T.A. He in turn introduced teachers. Plans were made for a welcome tea on Sept. 26 at 2.30. Following business, refreshments were served.

Pickle some nasturtium seeds in a jar of cider vinegar. Let the capers fall where they may.

WHY GROW OLD?

By JOSEPHINE LOWMAN

Jane Powell sips a lemonade which will be much more healthful for teenagers than tea or coffee.

Teenagers Better Off
Without Tea And Coffee

THE FRIDAY QUESTION BOX

Q. "I have read some articles by you about the proper diet for teenagers. I am one and I would like to know whether you think we should drink tea or coffee?"

A. As a general rule teenagers are better off without tea or coffee. They do not need the stimulation of them. Once in a while will not matter, but when you begin you may drink them too often.

Q. "I have a problem with my face. I am 21 years old and at one time had trouble with my skin. I used to pick at it, squeezing out blackheads and pimples. Now the pimples are all gone but I have little holes or scars in my face. Do you know of any way to get rid of these?"

A. I wish I could give this reader a more encouraging answer but I know of no way to rid the skin of scars. Time will make them less noticeable. I am printing this as a warning to other young girls who pick at their faces—and boys, too. You may develop a really serious skin condition and may also be left with scars.

Q. "Am I overweight? I am five feet, three inches tall and weigh 121 pounds. My bust measures 31, waist 26, hips 35. Would you please tell me if I should reduce my measurements and where?"

A. You did not tell me about your bony structure. You are not badly overweight but would probably have a better figure if you lost about five pounds. There is too much difference be-

tween your bust measurement and your hips. If you are in the early teens this may take care of itself as your bustline develops. Take waist and hip-reducing exercises as you watch your diet a bit. I will not give those exercises today because I have recently written about them. If you missed those columns, send a stamped, self-addressed envelope with your request for hip-reducing exercises to me in care of this newspaper.

Q. "I am 14 1/2 years old. I am five feet, three inches tall and weigh 118 pounds. I am large-boned. My bust measures 32 inches, waist 25 inches and hips 32 inches. Are my measurements correct?"

A. Your hips and bust are in perfect ratio. Your waist will probably slim as you grow older. However, you might help, nip it in a bit with waist-reducing exercises. You are not overweight for your bony structure.

Perfume That Clings

Q.—Dear Claire: I adore perfume, but for some reason or other its fragrance does not last on me. I have told several of my friends that I want a new perfume, but first I must find out about a lasting one.—Mrs. A. W.

A.—A particularly good idea for women who claim that perfume does not "stay with them" is a brand new fragrance medium by Houbigant called Liquid Skin Sachet. It smooths on the skin very easily and lingers longer because of its sachet base. It has a slower rate of diffusion and evaporation than any other type of fragrance. Try this Houbigant Chantilly Liquid Skin Sachet. Only \$1.95.

St. Joseph's Senior Ladies' Auxiliary
Successful Membership Silver Tea

Twenty tables were in play and a number of extra tea guests were served at a membership bridge and silver tea held yesterday afternoon by Senior Ladies' Auxiliary to St. Joseph's Hospital.

The affair was held in the Nurses' Home, bright with arrangements of autumn flowers for the occasion.

Auxiliary president and first vice-president, Mrs. T. Taylor and Mrs. J. D. Gillis received guests.

Presiding at the tea table which was covered with a cut-work lace cloth and decorated with a bowl of late summer roses were Mrs. E. J. Nash, Mrs. R. Fraser, Mrs. J. Hunt and Mrs. J. V. Lynch. Acting as server-

teers were Mrs. F. Kreigle, Mrs. T. C. Rogers, Mrs. A. Nesbit, Mrs. E. Hornsby, Mrs. S. Wilson, Mrs. D. Nation and other members of the auxiliary.

Mrs. Blair Reid and Mrs. George McDonald were at the door. Conveyer in charge of arrangements was Mrs. Taylor, and of the tea, Mrs. G. Cooney.

Mrs. E. V. Thomson drew door prizes as follows: Mrs. P. C. Shaw, Miss A. Healy and Mrs. V. McMaster.

Senior Ladies' Auxiliary meets once a week to sew for the hospital. This group is a member of the Community Chest and money received from that source is used to assist in care of indigent and chronic cases.

Guest Speaker—Miss I. F. Elliott, guest speaker at a recent meeting of Tuckabatchee Group, First Baptist Church, held in the home of Mrs. Pearl Laycock, Scott Street, outlined the work of other Baptist churches in British Columbia. She also highlighted the Baptist convention which took place in West Sumner last year. It was presided over by Mrs. M. Neill and Miss E. Gomme.

Artistic Decoration At Tea
For Rotary-Ann's Yesterday

An artistic and original tea table was the centre of interest at a get-acquainted tea in the Regent Place home of Mrs. John Cruise yesterday afternoon for the Women's Auxiliary to the Victoria Rotary Club.

The hostess placed the dark wood table in front of a background of leopard patterned drapes. Placed upon a length of intricately shaped piece of driftwood entwined with ivy and accented with African violets. Refreshment trays were centred with single floral blossoms and

multi-colored autumn flowers decorated the rooms.

Presiding at the tea table were Mrs. Percy Scurrell, Mrs. Jeff Arnott, Mrs. George S. Brown and Mrs. Walter Luney.

Mrs. Harry Wilkinson conveyed the affair.

Mrs. Len Hobbs, president, and Mrs. Cruise received guests.

Cheese Rolls With Soup—Many a summer day, your appetite says "Just soup please." If it's to be a guest meal, simply take down one of your favorites among the condensed soups—and serve it with something special like cheese rolls.

For these, scoop out the insides of long hard rolls and fill the centres with a softened cheese spread—perhaps pimiento or chive cheese. Chill in the refrigerator several hours. Then slice to serve for pleasant crunching with the hot soup.

TODAY'S RECIPE

CONCORD GRAPE PIE

Four cups Concord grapes, 1 cup sugar, 1 tablespoon quick tapioca, 1 recipe pie crust, 1 1/2 tablespoons lemon juice.

Stem the grapes and slip the pulp from the skins, reserving the skins in a bowl. Cook the pulp until the seeds loosen, then press pulp through a sieve into the bowl containing the skins; discard the seeds. Blend with sugar, lemon juice and tapioca and let stand five minutes. Pour into pastry-lined pie tin and cover with lattice crust. Bake at 450 degrees for 10 minutes then lower the heat to 350 degrees and bake 20 minutes more. Makes one nine-inch pie.

A WEEKLY INFORMATION SERVICE

MONTREAL, Sept. 20.—"A thing of beauty is a joy forever," wrote John Keats. And nothing truer could be said about a FRIGIDAIRE REFRIGERATOR. Its Raymond Loewy styling is certainly a joy forever. And so are its wonderful convenience and grand money-saving features. Your Frigidaire dealer is looking for old refrigerators right now to fix up and resell. He'll give you a generous allowance on yours on a wonderful new Frigidaire. You'll be happily surprised at how easy this big allowance will make your new purchase. Why not stop in at your nearby Frigidaire dealer's now and talk it over.

Just Think! — You May Win \$1000 by entering this grand WATERMAN'S INK CONTEST! \$2000 in CASH PRIZES! 103 PRIZE WINNERS! It's easy—its fun! Get a Waterman's Ink Contest Entry Form from your local store today. Write down the names of any SIX different Waterman's Ink Colours—such as Waterman's Washable Blue, Waterman's Tropic Green and so on. Ask the clerk for help if you wish! Then, mail me your completed Entry Form, together with a box top from any Waterman's Ink Container, 1st Prize is \$500, 2nd Prize \$200, 3rd Prize \$100 and 100 Prizes of \$2 each. You can DOUBLE your money by attaching box tops (or facsimiles) from any two different Waterman's Inks. Imagine winning \$1000! The lucky winners will be chosen by a prominent Canadian. Major prize winners' names will appear in this column early in November and a complete list of prize winners will be mailed on request. Get your WATERMAN'S INK CONTEST Entry Form from your local store today or write paper, entry of a plain sheet of paper, but mark your dealer's name and address. Send as many separate entries as you wish. All will be postmarked before midnight, Oct. 15, 1951. Mail to: WATERMAN'S INK CONTEST, P.O. Box 7500, Montreal 3. Enter NOW—Enter OFTEN—remember, Waterman's Inks are the ideal all-purpose ink!

I'm Reminded of a popular song-hit about "Money-Money-Money..." (who wants my money today?) every time I see these days of sky-high food prices! Particularly since I get so much for so little—buying BLUE BONNET MARGARINE! I like its delicate, country-sweet flavour—fresh as can be—all year round. And I love the Yellow Quik bag it comes in. Makes it so easy to colour Blue Bonnet. No messy dishes—no extra work... just press the colour button on the Yellow Quik bag and knead the bag gently. In just two minutes your Blue Bonnet is golden-yellow—ready-to-use! Yes! I feel I'm getting a lot for my money when I buy Blue Bonnet. Yes, I save enough to buy extra milk too!

Free Cut 'Way Down On Food Costs... can't help feeling a little proud of myself for doing it in these days of sky-high food prices! Particularly since I get so much for so little—buying BLUE BONNET MARGARINE! I like its delicate, country-sweet flavour—fresh as can be—all year round. And I love the Yellow Quik bag it comes in. Makes it so easy to colour Blue Bonnet. No messy dishes—no extra work... just press the colour button on the Yellow Quik bag and knead the bag gently. In just two minutes your Blue Bonnet is golden-yellow—ready-to-use! Yes! I feel I'm getting a lot for my money when I buy Blue Bonnet. Yes, I save enough to buy extra milk too!

Asah! The Luxury of getting into a warm "frax" bath after a busy day of Fall housecleaning! Asah—A bath is a special pleasure when you use a velvet-soft C-I-L COLOURED SPONGE! Yes, C-I-L Cellulose Sponges now come in four beautiful colours—blue—coral—yellow—green... to blend with your bathroom colour scheme. You'll love C-I-L Sponges! Soft as can be when wet, they're ideal for baby's bath and yours! They hold twenty times their weight in water—what's more they float. Have a "personalized" coloured bath sponge for every member of your family. Ask for C-I-L Sponges at grocery, drug, variety, hardware or department stores.

No Need To Sigh over the worn, weary state of your hand after Fall housecleaning is done! Even if you're an enthusiastic detergent user... you'll find that JERGENS LOTION soothes hands! You see, because Jergens is liquid, it quickly supplies the softening, smoothing, moisture dry, thirsty skin needs. And you'll find that when you use Jergens after every watery chore... by the end of your housecleaning day, your hands will look as if they'd never seen a scrub-rag!... soft, petal-smooth and white-as-you-like them! All reasons why I keep a bottle of Jergens Lotion handy—always! Just 15c, 37c, 65c and \$1.15.

I've Learned My Lesson!... after a trouble with an ordinary "slipping" paper, I'll never again buy anything but LIGHTNING SLIDE FASTENERS. Lightning supplies the snippers with famous automatic lock, and the perfection of expert workmanship! Yet they cost no more than an ordinary zipper! So insist on Lightning Slide Fasteners in the familiar red and black package!

If There's A Young Boy in your home, you aren't surprised when furniture and clothes are occasionally spotted with butter or chewing gum—fresh paint or even tar. There's no telling what growing youngsters will get into! But don't worry... just clean the spots with ENERGINE CLEANING FLUID! It removes grease spots, fresh paint, tar, chewing gum... from even the most delicate fabrics. And it's absolutely safe because it contains no acids nor caustics! Be prepared for those "little accidents"—put Energine on your shopping list today—as little as 25c at drug and department stores everywhere!

If You're Like Me, your budget just can't stand the strain of high prices today—every day. But here's good news!... a plan for meatless meals that will be kind to your budget—and appeal to your love of good food. Look KRAFT DINNERS! A real main dish... a wonderful macaroni-n-cheese combination that cooks to tasty lightness in only 7 minutes! And here's how economical it is... one package of "Kraft Dinner" contains enough for a main dish for four—at just a few pennies a serving! Ask your grocer tomorrow for several packages of delicious "Kraft Dinner"—sure to be a family "favourite"—and one of the handiest dishes to serve! I know! That's why I always like to have it handy on my emergency shelf.

It's Easy To Look Your Loveliest with this constant beauty companion—WOODBURY DREAM STUFF in the new dream compact for your purse. Yes, out of this sky-blue-and-white compact comes the loveliest complexion for you... for Dream Stuff is so so flattering. It's tint, foundation and powder all in one. Just fluff it on with its own downy puff... it will give your complexion colour, glow and velvety softness—and no "powdery" look (because it's Woodbury Dream Stuff). Dream Stuff comes in five dreamy shades in the new miracle-plastic compact that's light as your hanky, yet durable as you wish. Nothing to spill or break! Ask for Woodbury Dream Stuff in the new dream compact—only \$1.00—or in the blue-and-gold box—just 75c.

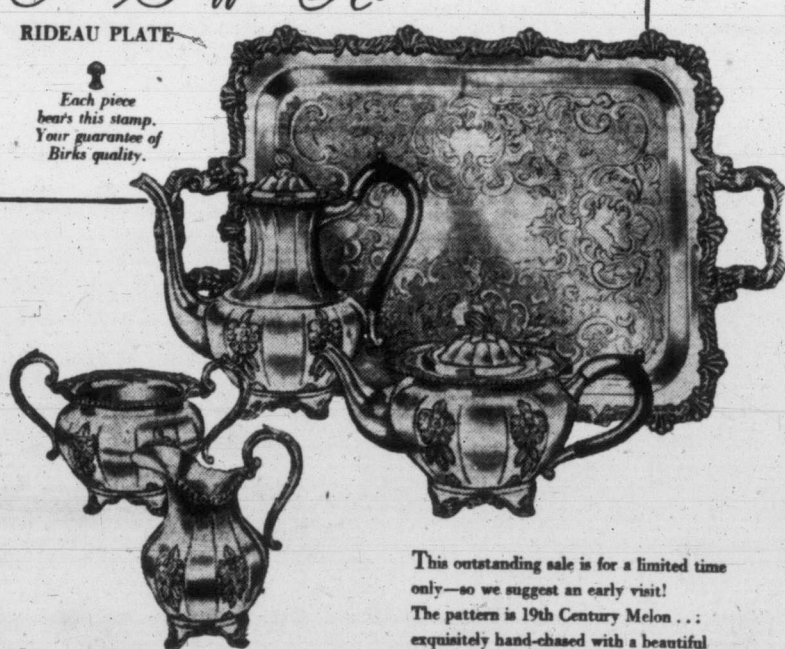

We All Suffer to some extent from "Fear of the Unknown." Are you, for instance, letting a lack of knowledge about feminine hygiene cast a shadow over your marriage? Then I'd like to tell you about this wonderfully satisfactory method of feminine hygiene—ZONITORS. Zonitors are effective, graceful, stainless, snow-white vaginal suppositories that are powerfully germicidal, yet absolutely safe to delicate tissues. And they're so very dainty and convenient to use! Ask your druggist for Zonitors tomorrow—and write to me—Barbara Brent, 1411 Crescent St., Montreal, P.Q.—for a free booklet giving frank facts on feminine hygiene. It will be sent to you in a plain wrapper.

'Eaglecrest' Hostess Busy Arranging Qualicum Resort For Royal Visit

By ELIZABETH FORBES

"The last summer guests left on the week-end," Dallas Irvine said on the telephone this morning, "and I've been relaxing for a few days."

"My holiday is over now, though," she continued with a low friendly laugh, "as you know, there are only three weeks left!"

In that three weeks, Mrs. Irvine will have "Eaglecrest" in readiness for the three-day holiday there of Princess Elizabeth and Prince Philip.

The exclusive resort, near Qualicum, is the former estate of the late Gen. and Mrs. A. D. McRae of Vancouver.

As yet, Mrs. Irvine has not had much time to devote to the duties that lie ahead, for "Eaglecrest" has been crowded with visitors throughout the summer.

"And we seem to have had an extra number of late summer guests this year," Mrs. Irvine says.

"But the gates are closed now—and we can go ahead with arrangements."

HOUSE CLEANING

Just as in any other household preparing for house guests, painters were there first thing Monday morning in the kitchen quarters of the 200-foot long rustic lodge. And all the drapes, the rugs and the slip covers were sent off to be cleaned.

Mrs. Irvine has received no orders for the Royal visit other than to "keep it simple."

So she tells you there will be no extra help employed.

The usual staff of 14, augmented by the Royal party's maids and valets, will cater to the comfort and well-being of the Royal couple.

There will also be a lady-in-waiting, the private secretary to Princess Elizabeth and the comptroller.

During the Royal stay at the Qualicum retreat, covers will be laid for six in the baronial dining room at the long oak refractory table that has on occasion seated 18. The table will be set with exquisite china and crystal that has been packed away for many years.

THE FLOWERS

Right now, the gardens of the 225-acre estate are ablaze with vivid autumn bloom and Mrs. Irvine hopes there will still be a showing of flowers from now.

There will certainly be blooms for the tables and for the rooms. And those flowers will be arranged by Mrs. Thomas Balmer, wife of the vice-president and head of the legal department of the Great Northern Railway.

"The way it happened makes a real story," Mrs. Irvine will tell you.

It seems Mrs. Balmer was a guest at "Eaglecrest" when word was received that the resort was to be the main centre for the Royal party's British Columbia holiday.

Immediately, she requested the privilege of returning to the lodge a day or so before Oct. 16 to arrange the flowers.

Ceremony Recorded For Parents

The entire church service, held recently and uniting in marriage Patricia Lorraine Manzer and John Alexander Smyth, was recorded and sent to the groom's parents, Mr. and Mrs. Harry Drysdale, Melbourne, Australia.

The bride is the daughter of Mr. and Mrs. Archibald Gordon Manzer, Vancouver. Rev. G. Gorrill officiated in Canadian Memorial Chapel.

A lace handkerchief, hand made by the bride's great-grandmother when she was married lent traditional interest to the wedding gown with its gleaming white satin redingote posed over a nylon net model with strapless bodice and hooped skirt. The fingertip veil was illusion net and the bride carried a bouquet of white chrysanthemums.

Velvet gowns trimmed in satin with full hooped skirts were chosen by Mrs. David Manzer, matron of honor, in spice color. Miss Arkee Johnson, maid of honor, in gold, and bridesmaid, Miss Joyce Kennedy, in green. Their bouquets were similar to the bride's.

Alexander Bingham was best man and ushers were David Manzer, Robert Joiner and David McLaughlin.

Mr. Reade proposed the toast to the bride at the reception in the Hollies.

Upon leaving for her honeymoon to San Francisco the bride wore a navy blue tulle with red accessories.

Telegrams from Hawaii and Australia were received by the bride couple.

COLD?

NO—BUT IT IS GETTING CHILLY

SEE YOUR NEW FALL

COAT

In English imported wool, untrimmed and fur-trimmed styles that will be the top of your new wardrobe.

184 FORT

Mrs. Dallas Irvine is enjoying more than a flutter of excitement at thought of meeting Princess Elizabeth and Prince Philip. Mrs. Irvine was educated in Winnipeg and during the war years dealt with T.C.A. priority reservations in Ottawa.

Her gracious offer was accepted.

This assures that flowers will be arranged in the most attractive manner, for Mrs. Balmer is an interior decorator of note, and for her flower arrangements in her home city of Seattle turns all her professional fees over to Seattle Orthopedic Hospital.

FEW CHANGES MADE

"Eaglecrest" itself has been changed very little since it was built 15 years ago by Gen. McRae, Mrs. Irvine says.

The house and other buildings are of cedar logs brought from Horne Lake district, less than 10 miles away. On the exterior these logs were left in their natural state and have now melted with the weather.

In the interior they were treated and dressed after the manner of rustic buildings in the Bavarian Alps and they have retained their natural yellowish hue with only a slight darkening through age.

The main lodge's four gigantic fireplaces were built of smooth-faced boulders brought from the mouths of Vancouver Island

creeks, the beach, and the countryside.

Many of the interior decorations were placed there by the late Mrs. McRae and her husband.

There is a complete selection of B.C.'s fur-bearing animals, in mounts, robes, rugs and runners. Over the hearth mantle in the main lounge hangs a Chilkotin chief's saffron ceremonial cape; the house bell is dated 1883, and stamped with the crest of the Grand Trunk Pacific Railroad.

Mexico is represented by brilliant, legend-painted gourds and two Saltillo sarapes, now almost extinct.

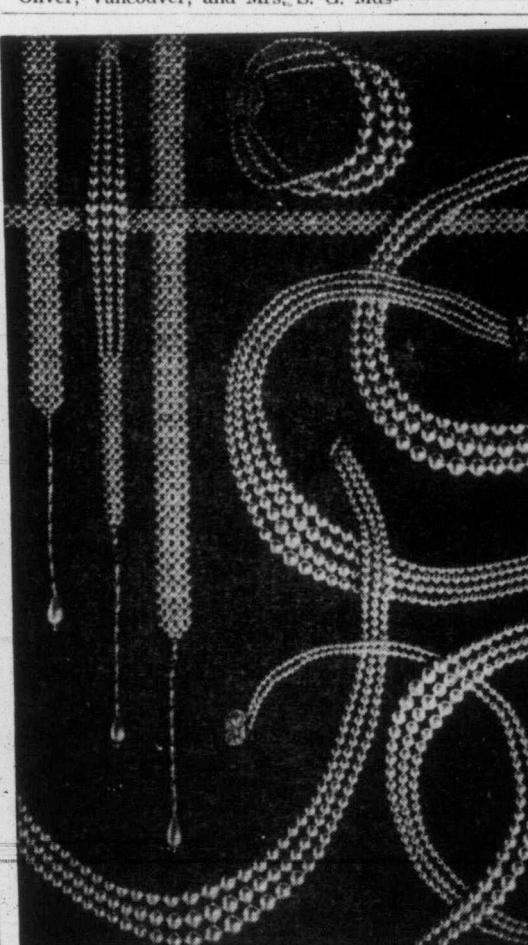

Carved old French habitant pieces blend to the honey tones of knotty pine walls in the suite to be occupied by the Princess. Large polar bear skins and hooked rugs are on the floor.

"We're thrilled that 'Eaglecrest' was chosen for the holiday," Mrs. Irvine says.

There could be no happier choice on Vancouver Island than "Eaglecrest" for a Royal holiday. And Dallas Irvine is the right person to see that all goes well while the Princess and Prince are in residence at that holiday retreat.

Mrs. P. A. Gibbs, left, wife of the reeve of Oak Bay, was hostess yesterday at a luncheon at Victoria Golf Club, when wives of members of the municipal engineers' division of the B.C. Engineering Society, in convention here, were honor guests. With her, left to right, are Mrs. A. L. Frich, Seattle, Mrs. J. C. Oliver, Vancouver, and Mrs. S. G. Mus-

grave, Oak Bay. Other social affairs planned for the visitors included a reception and luncheon in the Princess Charlotte Room at the Empress Hotel today, informal dinner in the Grill Room to-night, and fishing derby followed by cocktails and afternoon tea at Oak Bay Beach Hotel tomorrow afternoon.

OF PERSONAL INTEREST

Kiwanis Wives To Enjoy Full Agenda In Vancouver

Victoria wives accompanying their husbands to Vancouver this week-end for the 34th annual Kiwanis Pacific Northwest District convention in Hotel Vancouver, are in for a treat.

While their husbands attend meetings they will enjoy shopping, sightseeing tours, luncheons and teas arranged by the Vancouver women's committee.

Crossing to the mainland with their husbands will be Mrs. H. G. Mann, Mrs. William Young, Mrs. Art Songhurst, Mrs. R. L. McQuarrie, Mrs. Ed Mallek, Mrs. Joe Ford and Mrs. M. Park.

The convention will open with a service Sunday at St. Andrew's Wesley Church.

Next day, the feminine contingent will be guests at breakfast in the ballroom of Hotel Vancouver, and in the afternoon they will drive around the city and finally will be honored at a tea-hour reception in the home of Mrs. F. Ronald Graham. In the evening they will join the men at a banquet in the hotel.

Tuesday morning is free for shopping, and in the afternoon a cruise up Howe Sound has been arranged. They will return for the final banquet party of the convention.

As wife of the Vancouver Kiwanis president, Mrs. Stan Collier will be official hostess during the convention.

Pre-Nuptial Shower

Miss Patricia Ludlow, October bride-elect, was honored at a miscellaneous shower Wednesday evening given by Miss Verna Jackson, Earleton Avenue.

A corsage of pink rosebuds was presented to the bride-elect. Her mother, Mrs. W. A. Ludlow, and mother of the groom-elect, Mrs. C. Hunt, received pink and white carnations.

Gifts were arranged in a decorated umbrella.

Guests included Mesdames R. Jackson, S. Worboys, L. Herbert, Misses Mary Bocko, Florence Hitch, Sylvia Inkpen, Ruth Craven, Barbara Nutt, Donna Ludlow, Joan Davies, Dorothy Poppo, Jessie Sutcliffe, Carol Pomeroy and Carol Richards.

Misses F. Nichol and G. Wilbur were co-hostesses at a recent shower in their suite at the Queen's Apartments, in honor of Miss Sheila Turnbull, who is to be married this week-end. The guests, her fellow workers at H.M.C.S. Naden Naval Hospital, presented the bride-elect with a plate glass mirror. A treasure hunt, revealed the gift. Guests were Mrs. V. Gersbach, Misses M. Quayle, G. Gee, M. Crawford, E. Lettice, and M. Armstrong.

Mr. and Mrs. S. Upcott who have been visiting in Victoria from England for several months, left Wednesday to return to the British Isles. While in the city they were guests of relatives, Mr. and Mrs. C. Teasdale, Hampshire Road. Prior to their departure a farewell party was given them.

Mrs. A. Johnson, Vincent Avenue, honored Lorraine Arnet, September bride-elect, at a miscellaneous shower recently. The guest of honor was presented with a corsage of red roses and her mother, Mrs. T. Arnet, and mother of the groom-elect Mrs. Q. Murdoch, received pink carnations. The refreshment table was covered with a cut-work cloth and decorated with shell pink asters and pale green candles. Gifts were arranged in an up-turned Mexican hat. Guests included Mesdames G. Nicholson, A. Charlebois, T. Brown, W. Shields, B. Arnet, J. Neuls, J. Waselenchuck, W. Brazier, B. Murdoch, R. Bishop, G. Gyllenstetz, T. Sallaway, C. Philipson, Misses B. Murdoch, B. Shields and L. Foster.

Maj. F. M. Murray, Royal Canadian Dental Corps, H.M.C.S. Naden, has returned from a four-week course at the U.S. Naval Dental Medical Centre, Bethesda, Md.

Mrs. H. R. Arnold, Vancouver, has returned to her home in Vancouver, following a visit with Mrs. R. C. Campbell, Dominion Road.

I.O.D.E. Post-Graduate Scholarships

To perpetuate the memory of men and women who died in the First World War, Imperial Daughters of the Empire established a war memorial, leading feature of which is annual award of post-graduate overseas scholarships.

These scholarships are offered to enable students to carry on studies in history, economics or constitutional government or any subject vital to interests of the

British Empire. Scholarships, tenable in any university in the United Kingdom, are of the value of \$2,000 a year.

Candidates may be unmarried men or women. They must be British born or naturalized allies, or naturalized neutrals with at least five years residence in Canada. Each candidate must hold a degree from a recognized university in the province from which they apply and must have

done, or be doing, post-graduate work.

Selection will be made in November by a committee appointed by the I.O.D.E. Applications must be sent to I.O.D.E. provincial educational secretary not later than Oct. 15.

Further information regarding qualifications may be obtained from Mrs. F. Stead, provincial educational secretary, I.O.D.E., 517 Ford Building, Vancouver 4, B.C.

BEDTIME STORY

by Thornton W. Burgess

Never say things can't be done. Progress thus was never won. —Old Mother Nature.

Peter Rabbit was feeling lonesome. He really was. For many days he had been a daily visitor in the neighborhood of the home of Mrs. Hummerbird. Quite by accident he had discovered the dainty little nest that was her home. After that he had gone every day to look up at it and admire it and to watch Mrs. Hummer. Of course it wasn't polite for him to watch Mrs. Hummer but he didn't think anything about that. And if she didn't like it there was nothing she could do about it.

He watched her feed her babies and later when he was back in the dear old briar-patch he told Mrs. Hummer about it. "My dear," said he, "you really should have gone over there with me and seen for yourself the way those babies were fed. You've never seen anything like it. Mrs. Hummer doesn't just drop in their mouths the way most mother birds feed their young. No sir, she doesn't do that. She puts that food way down their throats. I guess she puts it right down in their stomachs. Anyway, it looks as if she is doing that. I wonder that the poor little things hadn't

choked to death. It is something to see. Yes, my dear, it is something to see. Why don't you go over there with me?"

"Because I have sense enough to stay right here in the dear old briar-patch where I belong and where I am safe," retorted little Mrs. Peter rather sharply. She doesn't approve of Peter's wanderings. She thinks he has too much curiosity, and probably she is right.

It was only a few days later that Peter came home again full of wonder.

"They didn't have to learn to fly," cried Peter.

"Who didn't have to learn to fly?" asked little Mrs. Peter.

"Mrs. Hummer's two babies," replied Peter.

"What of it?" asked Mrs. Peter, and added, "Our babies don't have to learn to use their legs. As soon as they are big enough to run, they do. Why shouldn't birds use their wings without having to learn how?"

"I've watched a lot of young birds learning to fly," declared Peter. "They may be able to fly just a little bit when they leave the nest, but only a little bit. Those children of Mrs. Hummer's shot off the nest just as their mother might have done and I haven't seen them since. I miss them."

"Probably they don't miss you," declared little Mrs. Peter.

Peter pretended not to hear that. Also he continued to go back every day for a look at that dainty little nest, hoping he might see Mrs. Hummer or one of the little Hummers back there. He never did. Nursery days were over. And when nursery days were over, feathered folk no longer have use for their nests. Lovely and dainty as was Mrs. Hummer's nest she was through with it. She had no more use for it. When another year she would make one. Now with the child run out in the great world for themselves she was carefree and had only herself to think of. Soon it would be time to start the long journey to the land-of-always-summer to spend the winter. Now she must prepare for it by getting in the best condition possible.

Only once again did Peter see Mrs. Hummer. It was up in Farmer Brown's flower garden, where of course Peter had no business to be. Mrs. Hummer was darting from flower to flower. If she saw Peter she made no sign. Finally she shot away like a little green bullet. Once more Peter had that lonesome feeling.

Offer To Sell Milk Below Delivery Price

Safeway Stores Ltd. could sell milk over the counter to Victorians 2 cents a quart cheaper than milk delivered to the home, a company spokesman said today.

The chain store has asked the Milk Board's permission to make counter sales at a lower price. No decision has been made.

If permission is granted, standard milk would sell at 22 cents instead of 24 and special milk at 24 instead of 26.

The official also said Safeway has asked the board to remove all price-fixing above the producers' level. He said this hasn't been mentioned in reports although it was made at the same time as the other request.

"Our request is double-barrelled," he explained. "If we were granted permission to sell cheaper milk over the counter, we wouldn't press for removal of price-fixing above the producers' level."

Agriculture Minister Harry Bowman said the decision will be left up to the Milk Board, adding that the government cannot instruct the Milk Board.

School Superintendents May Return To Classes

SASKATOON (CP) — School superintendents may go back to school. The idea of a national school to teach them the complexities of larger school unit administration was endorsed on Thursday at a meeting of school superintendents or inspectors from all provinces.

A final decision on the proposal will be made by a committee of provincial superintendents and educational administrators meeting here in conjunction with the annual meeting of the Canadian Educational Association.

If the proposal is adopted, the Kellogg Foundation will be asked to finance the school. The foundation has been reported interested in such an undertaking.

Proponents of the school said it is necessary to train superintendents and inspectors specifically for the work of administering larger school units, which involves a multitude of duties entirely new. These include selection of location and types of buildings, staff selection, decisions of how far to go in centralization of rural facilities, and public relations with both ratepayers and municipal councils.

NEW TREND

Two superintendents or inspectors from each province are attending.

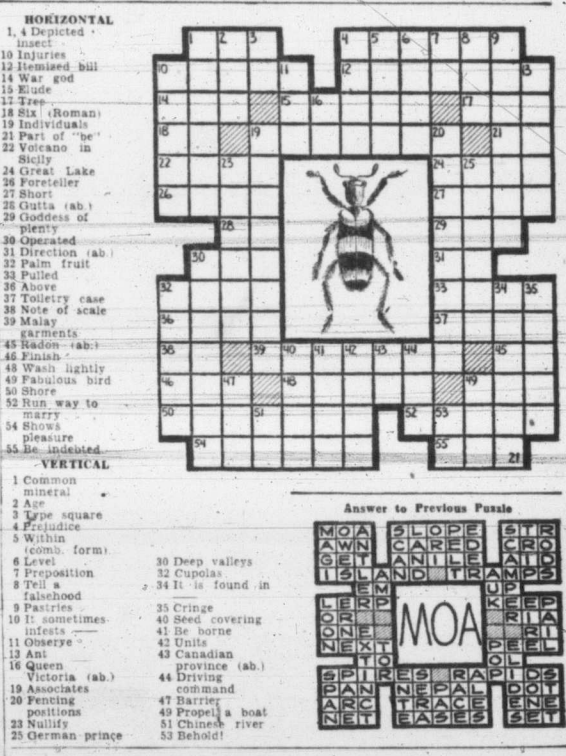

Speakers said there has been a steady trend since 1945 to the larger unit of school administration. Some provinces, such as B.C. and Nova Scotia, had adopted an administrative unit covering the whole province. Others, like Saskatchewan, had taken in only part.

In the main convention, a proposal was endorsed for the establishment of a co-operative research office by the Canadian Educational Association, the Canadian Teachers' Federation and any other groups interested in educational research.

New German Trade Agreement Signed

BERLIN (AP)—East and West Germany signed a new trade agreement Thursday after the Russian zone is reported to have guaranteed that traffic to West Berlin will be safe from harassment.

The announcement was made by West German officials and confirmed by Allied authorities.

Defeat May Cost Cotton Cup Position

HOYLAK, England (AP)—All the remaining British Ryder Cup nominees and the veteran Henry Cotton were eliminated in the fourth round of the British Professional Golfers' Association match play championship today.

Dal Rees, winner for the last two years, was beaten 2 and 1 by Reg Knight, a suburban London golfer. Cotton, playing in his first British tournament this year, fell 3 and 2 to Harry Weetman, a young long-hitting assistant professional from a south suburban London course.

The loss virtually eliminated Cotton from consideration for one of the two remaining places on the British Ryder Cup squad. The cup selectors are due to meet tomorrow to complete the team. Experts figure the tournament finalists are sure bets for the squad.

Richards Says History May Repeat

NEW YORK (AP)—Manager Paul Richards of Chicago White Sox, who might be expected to make an intelligent guess as to the winner of the torrid American League race, claims that all he knows is what the history books tell him.

"All the reading I've done," he droned before Wednesday's game at Yankee Stadium, "says that when it comes down to a close finish like this one the Yanks always seem to win. I can't tell you why that is, but it's history."

Richards, who has boosted the Sox into the first division in his initial season as a big league manager, declined to go beyond that in choosing between Cleveland and the Yankees, but made it plain he didn't think Boston Red Sox had much chance of crowding into the picture.

'Thrift Campaign' Urged For Mothers

OTTAWA (CP)—Mrs. R. J. Marshall, president of the National Council of Women of Canada, called on Canadian mothers and housewives Thursday to launch a "thrift campaign" to beat "Canada's No. 1 enemy"—inflation.

A delegate to the annual meeting of the Canadian Association of Consumers' Board of Directors, Mrs. Marshall said some women may not be able to save much—perhaps not more than 5 or 10 cents a day; others may be able to trim \$5 a week from their spending.

Leaves \$1 Bill For Stolen Light

"This dollar, mister, is to replace the spotlight I stole from your car."

That was the note, signed "Dick Brinkling," with the bill attached, that Larry Van Humbeck, R.R. 1, Royal Oak, found in the glove compartment in place of the light when he returned to the parked vehicle on Fort Street last night, police said.

Mrs. Van Humbeck didn't suffer a total loss, but the spot was worth \$9.

Y's Men's Club Installs Officers

Newly-elected officers of the Victoria Y's Men's Club were installed at a dinner meeting Thursday night.

Holding office for the next year are: President, Cliff Joyce; vice-president, Russell Sampson; secretary, A. E. Zala; and treasurer, Victor Christensen.

Clocks Go Back At End Of Month

B.C. will go back to standard time Sept. 30.

Daylight saving time, in effect since April 29, will be dropped officially at midnight a week Sunday.

B.C. Airlines' Hangar Nearing Completion

CAMPBELL RIVER—A 40 by 50-foot hangar on Campbell River Spit for B.C. Airlines is nearing completion and may be in operation next week. An adjoining waiting room will be built later.

Three aircraft, six pilots, an engineer and dispatcher serve the company's Campbell River operations.

Albion Legion Asks More War Allowances

PARKSVILLE—Mr. Arrow-smith, branch, Canadian Legion, will ask the fall session of Parliament for increased war veterans' allowances and basic pensions.

Copies of the resolution will be sent to the district zone meeting and J. L. Gibson, M.P.

PUT IT IN THE BANK

Sum of \$3,211 received from the provincial government when it expropriated waterworks property at Elk Lake for the new highway will be set aside in the "Sale of Capital Assets" bank account, if City Council approves a finance committee recommendation.

PROPERTY FOR SALE
